

Huawei.H13-821_V2.0-ENU.v2022-02-18.q112

Exam Code:	H13-821_V2.0-ENU
Exam Name:	HCIP-Cloud Service Solutions Architect V2.0
Certification Provider:	Huawei
Free Question Number:	112
Version:	v2022-02-18
# of views:	2688
# of Questions views:	1120
https://www.exam-tests.com/H13-821_V2.0-ENU-exam/Huawei.H13-821_V2.0-ENU.v2022-02-18.q112.html	

NEW QUESTION: 1

HUAWEI CLOUD tenants use one DDM instance and one RDS instance respectively, and create a logic library, which contains 8 shards.

As the business grows, it is necessary to smoothly expand an RDS instance. After the expansion, how many shards are there on each RDS?

- A. 4
- B. 8
- C. 16
- D. 12

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 2

Which of the following types of protocols does the HUAWEI CLOUD ELB four-layer load balancing instance support? (Multiple choice)

- A. HTTP
- B. UDF
- C. TCP
- D. HTTPS

Answer: B,C ([LEAVE A REPLY](#))

NEW QUESTION: 3

Middleware can help users develop and integrate complex application software flexibly and efficiently.

- A. True
- B. False

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 4

HUAWEI CLOUD application performance management service completes application performance data collection by installing a collection agent on the node where the application is located. The collection agent is based on the industry's Pinpoint open source project and uses JM bytecode enhancement technology to collect application indicators in a non-intrusive manner. What kind of technology stack does not support the application developed by APM?

- A. C++
- B. JAVA
- C. Spring
- D. Tomcat

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 5

With the rapid growth of Internet business, the application architecture is also constantly changing. Which of the following options is not mentioned in the changes of the application architecture?

- A. SOA architecture
- B. Monolithic architecture
- C. Atomic architecture
- D. Microservice architecture

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 6

From the perspective of the cloud security shared responsibility model, which of the following is not the security responsibility of HUAWEI CLOUD?

- A. HUAWEI CLOUD's infrastructure security
- B. Tenant security group and security policy configuration management
- C. Connect with the security laws and regulations of the place where HUAWEI CLOUD operates
- D. Operational security of HUAWEI CLOUD services

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 7

The development of software engineering methods is more and more advanced from waterfall, agile to DevOps. Therefore, DevOps has nothing to do with Agile. Companies only focus on DevOps methods and practices to improve R&D efficiency and benefits.

- A. True
- B. False

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 8

Which of the following description is related to the container mirroring service (SWR)? (Multiple Choice)

- A. Safe and reliable. Mirror warehouse multi-tenant isolation; security scanning; high reliability of data (three backups)
- B. Multi-platform docking deployment. Support cloud container engine (CCE), microservice cloud application platform (Servilestage), function service (functions age), container mirroring service user deployment call
- C. Mirror management. Docking with Huawei MarketPlace, saving management of charged mirror images purchased by customers
- D. High performance. Self-developed high-performance container network, automatic elastic scaling in seconds, supporting high-performance private clusters of all containers

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 9

From the perspective of application development and deployment perspective, which of the following areas does cloud architecture include? (Multiple choice)

- A. Safe design
- B. Scalability and automatic scaling design
- C. API interface design
- D. Loosely coupled and stateless design
- E. Fault-tolerant design of system failure

Answer: A,B,D,E ([LEAVE A REPLY](#))

NEW QUESTION: 10

Which of the following options is not the product value of the container delivery line?

- A. End-to-end agile delivery
- B. Tenants do not need to create a mirror
- C. Seamlessly attributed to Huawei software development services
- D. Pluggable CI/CD tool
- E. Out of the box

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 11

Which of the following are the key features of DDM services? (Multiple choice)

- A. Uninterrupted business, automatic horizontal splitting and smooth expansion
- B. Can withstand PB-level data volume, millions-level concurrency, ten times that of a single-machine database connection
- C. Compatible with MySQL protocol
- D. The cluster is highly available and can automatically recover from failures in seconds
- E. Compatible with Oracle protocol

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 12

Which of the following is not an application scenario for intrusion detection?

- A. Illegal entry into dangerous areas
- B. Face attendance
- C. Ascent/climb detection
- D. Illegal entry into key areas

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 13

Intermediate applications can use intermediates.

- A. True
- B. False

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 14

UML class diagram deployment shows the dynamic relationship between classes.

- A. False
- B. True

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 15

What are the four cloud native applications? (Multiple Choice)

- A. Microservices
- B. DevOps
- C. Continuous delivery
- D. Container

Answer: A,B,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 16

Which of the following scenarios can the smart outbound solution be applied to? (Multiple choice)

- A. Seat assistance
- B. Potential user mining
- C. Telephone return visit
- D. Knowledge base construction

Answer: ([SHOW ANSWER](#))

exam dumps, the BraindumpsPass.com H13-821_V2.0-ENU exam **questions have been updated** and **answers have been corrected** get the **newest** BraindumpsPass.com H13-821_V2.0-ENU dumps with Test Engine here:
https://www.braindumpsPass.com/Huawei/H13-821_V2.0-ENU-practice-exam-dumps.html
(653 Q&As Dumps, **40%OFF Special Discount: Exam-Tests**)

NEW QUESTION: 17

Which of the following protocols is not supported by Huawei Web Application Firewall? (Multiple choice)

- A. HTTPS
- B. SSH
- C. FTP
- D. HTTP

Answer: B,C ([LEAVE A REPLY](#))

NEW QUESTION: 18

Which of the following options are the application scenarios of Huawei Cloud's multi-cloud container platform and hybrid cloud solution? (Multiple choice)

- A. Data and business separation
- B. Separation of development and deployment
- C. Traffic sharing
- D. More active business and disaster recovery
- E. Separation of core computing program from general user business

Answer: A,B,C,D,E ([LEAVE A REPLY](#))

NEW QUESTION: 19

Which of the following is not the way to access the container application?

- A. ELB
- B. Node Port
- C. Service
- D. VPC

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 20

What are the advantages of microservices? (Multiple choice)

- A. Different technology stacks can be used to build services
- B. The architecture can be flexibly extended
- C. Lightweight protocol, HTTP protocol communication can be used
- D. Microservices are a silver bullet, suitable for various business scenarios

Answer: A,B,C ([LEAVE A REPLY](#))

NEW QUESTION: 21

The main advantage of the edge container cluster MCP is that it is simple to build and deploy. It can take into account data security, business flexibility, high-quality computing power, and asset cost: there is no threshold for online and offline migration of applications, reliability and disaster tolerance, which can quickly satisfy customers Diversified scene requirements.

- A. True
- B. False

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 22

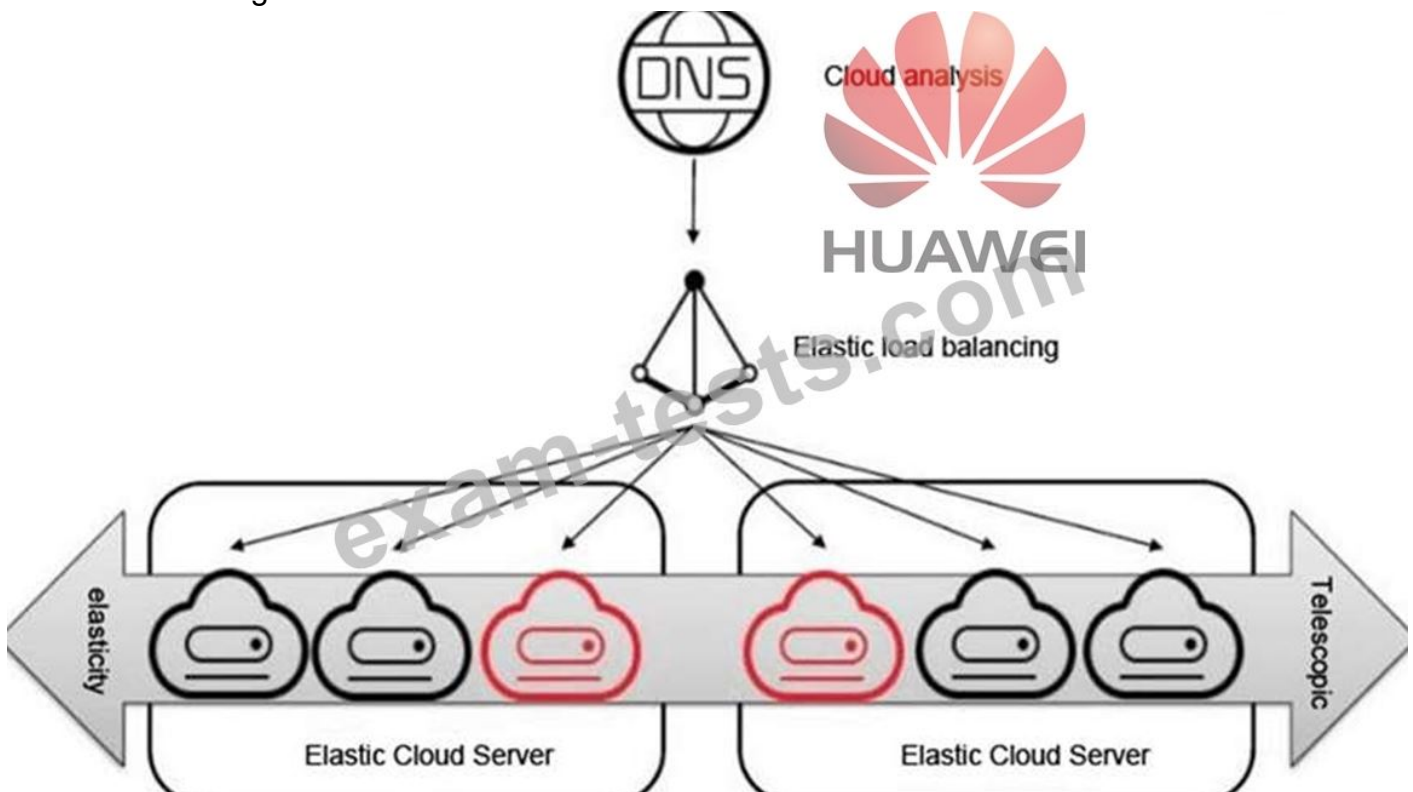

In the IOT industry, the amount of data transmitted by the device is very small, and there are fixed time intervals for the shore. In this case, the utilization of the CPU is very low. In order to save capital, which solution of Huawei Paas can be used?

- A. Capability Opening API Gateway
- B. Serverless function computing platform
- C. Apply SaaS transformation plan
- D. Application microservices solution

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 23

In the diagram below. Which is the correct statement about Huawei's cloud elastic load balancing and elastic scaling services coordination?

- A. The cloud servers in this figure all provide the same service out.
- B. Huawei elastic scalability service current page support container

- C. The service configuration in the elastic scaling group can be different.
- D. When the elastic scaling service and load balancing work together, the scaling policy no longer works.

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 24

A complex business system often requires multiple functions to be linked. Which of the following methods can be used to implement one function calling another function? (Multiple choice)

- A. The current function cannot interact with other functions
- B. Configure APIG triggers for the function, and call the API bound to the function in the current function
- C. You can use the function name of another function to call directly in the function code
- D. Configure OBS triggers for the functions that need to be called, and then trigger related events to the OBS response bucket in the current function
- E. Call the API interface provided by FunctionGraph in a function and call another function

Answer: B,C,D,E ([LEAVE A REPLY](#))

NEW QUESTION: 25

Which of the following scenarios can use graph data analysis technology? (Multiple choice)

- A. Financial transaction records
- B. Knowledge Graph
- C. Social relations
- D. Transportation network

Answer: A,B,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 26

Which of the following are middleware services provided by Huawei public cloud? (Multiple choice)

- A. DRDS: Distributed Relational Database
- B. DMS: Distributed Message Service
- C. DCS: Distributed Cache Service
- D. CMQ: Cloud Message Queue
- E. DDM: Distributed database service

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 27

When a business needs high availability, high reliability, but it is also a large-capacity, high concurrent data cache, then which type of Huawei cloud Distributed Cache DCS services should be selected by the application?

- A. None of the above
- B. Cluster

C. Active and standby

D. Stand-alone

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 28

Which of the following options is not the value that the container multi-cloud hybrid cloud solution brings to customers?

A. The virtual machine application automatically converts the container

B. Avoid vendor lock-in

C. Application geographical affinity

D. Efficient disaster recovery management

E. Unified and open management platform

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 29

The host security service supports weak password detection.

A. False

B. True

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 30

Which of the following options can implement offline VMware virtualization environment backup data to the cloud?

A. Cloud hard disk service EVS

B. Dedicated distributed storage service DSS

C. Cloud backup service CBR

D. Cloud server backup CSBS

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 31

Huawei Cloud tenants can manage third-party virtualization systems such as VMware based on the HCS Online solution heterogeneously.

A. False

B. True

Answer: B ([LEAVE A REPLY](#))

Valid H13-821_V2.0-ENU Dumps shared by BraindumpsPass.com for Helping Passing H13-821_V2.0-ENU Exam! BraindumpsPass.com now offer the **newest H13-821_V2.0-ENU exam dumps**, the BraindumpsPass.com H13-821_V2.0-ENU exam **questions have been**

NEW QUESTION: 32

The Intelligent Data Lake Operation Platform (DAYU) can help enterprises cope with the challenges of data management, and provide data lifecycle management in response to the demands of enterprise digital operations.

- A. False
- B. True

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 33

When using the Huawei Cloud Distributed Database Middleware DDM service, which of the following is the correct order?

- A. Import RDS, create DDM, create logic library, create logic table
- B. Create DDM, import RDS, create logic library, create logic table
- C. Create DDM, create logic library, create logic table, import RDS
- D. Create DDM, create logical table, import RDS, create logical table

Answer: ([SHOW ANSWER](#)**)**

NEW QUESTION: 34

Which of the following is an annotation provided by the CSE microservice development framework to support developers using Spring MVC style to develop microservices?

- A. RpeSchema
- B. RestScheme
- C. RestTemplate
- D. RestController

Answer: ([SHOW ANSWER](#)**)**

NEW QUESTION: 35

Regarding the description of the full-stack exclusive neutral security sub-solution, which of the following statement is wrong?

- A. Tenant-side security provides tenant protection capabilities through the security center: situational awareness SA, three-machine security H vulnerability scanning VSS and bastion host CBH features
- B. Platform-side security: Customers are required to purchase security services such as Anti-DDoS letter security flow black hole blocking capabilities
- C. Platform-side security: The hardware and software of security devices are operated and maintained by Huawei.

D. Provide security protection capabilities on the tenant side and the platform side

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 36

Container image is a standard format for publishing container applications. Users can build an image package through Dockerfile.

A. False

B. True

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 37

Which of the following fine-grained template strategies is not supported by HUAWEI CLOUD RDS?

A. RDS Viewer

B. RDS Admin

C. RDS DBA

D. RDS Test

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 38

Which of the following scenarios is not suitable for HDFS?

A. The stored data needs to be read repeatedly

B. Stored data write times

C. Store ultra-large-scale data

D. The stored data needs frequent modification

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 39

Which of the following are the application scenarios of HUAWEI CLOUD APM (Application Performance Management Service)? (Multiple Choice)

A. Trace the root cause of the problem through the call chain

B. Use templates to deploy applications to the cloud in one click

C. Analyze transaction status through Apdex value

D. Use the topological diagram to grasp the health of the application

Answer: A,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 40

Compared with the traditional monolithic architecture, which of the following problems can the microservice architecture solve? (Multiple Choice)

A. Long training time for newcomers

B. Poor scalability

- C. Poor code quality
- D. Long lead time
- E. High application maintenance cost

Answer: A,B,D,E ([LEAVE A REPLY](#))

NEW QUESTION: 41

Microservice Architecture is an architectural model. Which of the following is advocates? (Multiple choice)

- A. Lightweight communication mechanism
- B. Loosely coupled, independently deployed
- C. Independent process is also process isolation
- D. focused on doing one thing

Answer: A,B,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 42

Which of the following features does HUAWEI CLOUD Web Application Firewall support? (Multiple choice)

- A. Anti-malicious crawlers
- B. Anti-mail bomb
- C. Anti-XSS
- D. Prevent SQL injection

Answer: A,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 43

Which of the following capabilities is not an advantage of GES services?

- A. Data cleaning
- B. Graph neural network algorithm based on Model Arts
- C. Graph analysis, graph calculation
- D. Large-scale graph database

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 44

Tenants use the log function of the HUAWEI CLOUD application operation and maintenance service, and the operation and maintenance personnel do not need to log in to the nodes in the cluster to download the logs. They can view and search the logs online to locate the problem.

- A. False
- B. True

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 45

How many layers of structure does the DAYU data asset catalog use?

- A. Sixth floor
- B. Five layers
- C. Four floors
- D. Three layers

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 46

Which of the following scenarios is suitable for adopting a full-stack exclusive solution?

- A. Local deployment of the operation and maintenance system requires local on-site operation and maintenance and offline upgrade
- B. Heterogeneous hardware, local operation and maintenance
- C. Use HUAWEI CLOUD's O&M platform for unified O&M
- D. Manage third-party virtualization or heterogeneous hybrid clouds

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 47

Which of the following is a function of the Huawei Cloud Distributed Cache DCS service?

- A. Horizontal expansion of the database
- B. Asynchronous decoupling between modules
- C. Mass transaction transactions
- D. Key-Value data cache

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 48

DLI services can directly process unstructured data through SQL, such as voices, pictures, etc.

- A. True
- B. False

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 49

Which of the following is a function of the HUAWEI CLOUD distributed messaging DMS service?

- A. Mass transaction transactions
- B. Asynchronous decoupling between modules
- C. Horizontal expansion of the database
- D. Key-Value data cache

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 50

Which of the following options are the top three scenarios for high-performance batch computing of HUAWEI CLOUD containers? (Multiple choice)

- A. AI container scene
- B. Transcoding container scenario
- C. Big data container scenario
- D. Gene container scenario

Answer: A,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 51

At the HUAWEICONNECT 2018 conference, Huawei officially released the Huawei Cloud Intelligent Edge Fabric (IEF) and Atlas500 smart small station, providing full-stack capabilities from AI chips, smart hardware to edge cloud services.

Which of the following does not belong to its typical application scenarios?

- A. Security surveillance scene. Through video pre-analysis on the edge side, real-time perception of security events and monitoring linkages in parks, residences, supermarkets and other video-monitoring scenes are realized
- B. Industrial visual scene. The trained vision model in the cloud is deployed at the edge to realize real-time product prediction, improve detection efficiency, and improve product quality
- C. Remote disaster tolerance. The user's local data center is interconnected with HUAWEI CLOUD's VPC through a cloud dedicated line, and the VPC is deployed across AZ, so that the user's data and services are backed up to different regions, achieving the purpose of remote disaster recovery.
- D. Predictive maintenance of industrial manufacturing. Predictive maintenance of equipment is a typical scenario of industrial IoT. The edge can preprocess a large amount of data in time, and use edge model prediction to improve equipment operation and maintenance efficiency and reduce equipment unplanned downtime

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 52

What are the main horizontal solutions of DWS? (Multiple choice)

- A. Data warehouse relocation solution
- B. OLTP+OLAP mixed load solution
- C. New data warehouse + BI program
- D. Real-time streaming solution

Answer: A,B,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 53

The answer returned by the question-answering system based on the knowledge graph is the answer part of the pre-written QA.

- A. False
- B. True

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 54

Which of the following scenarios are typical application scenarios of DDM? (Multiple choice)

- A. Internet user information
- B. Social networking site friend relationship data
- C. Chat data of social applications
- D. SMS verification code

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 55

Which of the following options is not a full-stack solution for HUAWEI CLOUD containers?

- A. SAP HANA container solution
- B. High-performance container batch computing solution
- C. Container multi-cloud hybrid cloud solution
- D. Container Intelligent Edge Computing Solution

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 56

Which of the following components will not be used in massive data storage and offline analysis scenarios?

- A. CDM
- B. F link
- C. Map Reduce
- D. HDFS

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 57

Application Performance Management (APM) supports non-intrusive performance data collection with easy access without modification to business code.

- A. True
- B. False

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 58

HUAWEI CLOUD tenants realize the interconnection between the tenant data center and HUAWEI CLOUD data center through a dedicated line. Current users realize the upload of OBS data through a dedicated line. Which solutions are recommended without considering IP conflicts?

- A. Dedicated line + NAT to access OBS
- B. Dedicated line + EIP to access OBS
- C. Dedicated line + physical firewall to access OBS
- D. Dedicated line + VPC Endpoint to access OBS

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 59

Which of the following features does HUAWEI CLOUD database security service not support?

- A. Fine-grained account management and authority control
- B. CC attack protection
- C. Dynamic data desensitization
- D. SQL injection defense

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 60

What kind of characteristics of pyrotechnics are used to complete video analysis in pyrotechnics recognition?

- A. Sound
- B. Temperature
- C. Visual characteristics
- D. None of the above

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 61

Which of the following is the correct step for CCE deployment application?

- A. Container settings, application access settings, application basic information settings, advanced settings
- B. Application basic information settings, container settings, application access settings, advanced settings
- C. Application access settings, container settings, application basic information settings, advanced settings
- D. Application basic information settings, application access settings, container settings, advanced settings

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 62

Which of the following options is not the underlying key technology of the container engine?

- A. C group
- B. Union Filesystem
- C. KVM
- D. Namespace

Answer: C (LEAVE A REPLY)

NEW QUESTION: 63

Regarding the description of the use and operation of HUAWEI CLOUD Security Services, which of the following statements are correct? (Multiple choice)

- A. After the host security detects the existence of a weak password account in the host system, the administrator should promptly modify the password
- B. There is no available system host security quota, which will cause the host security protection to be unavailable
- C. It is detected in WAF that normal business requests have been blocked by mistake, and exception rules can be configured for processing
- D. The vulnerability scanning service detects vulnerabilities and needs to be analyzed and processed as soon as possible based on the actual business situation

Answer: A,C,D (LEAVE A REPLY)

NEW QUESTION: 64

Which of the following options is not a way to improve the e-commerce user experience?

- A. Configure CDN to achieve static page acceleration
- B. Use site content to separate dynamic and static to achieve a smooth site experience
- C. Cache static product images in ELB to reduce the pressure on the web and improve user experience
- D. Store static files in the HUAWEI CLOUD OBS bucket, and achieve static page acceleration by supporting HUAWEI CLOUD CDN through OBS Connect

Answer: C (LEAVE A REPLY)

NEW QUESTION: 65

Who are the users of ModelArts service for?

- A. AI Ops personnel
- B. Citizen Data Scientist
- C. Application developers
- D. AI experts

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 66

At present, all cloud computing vendors can well support access and governance of microservices developed by Java, but microservices developed in other languages more adopt the SideCar model. The typical practice is Service Mesh.

- A. True
- B. False

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 67

The tenant uses the ELB service on Huawei Cloud to provide external services, and the backend runs two elastic cloud servers of c6.large.2 (2U 4G) specifications. Later, due to business expansion, two new elastic cloud servers of c6.xlarge.4 (4U 16G) specifications were added. For elastic servers of different specifications under the same listener, it is recommended to use weighted round-robin or minimum connection algorithms to achieve business load balanced.

- A. True
- B. False

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 68

Application Orchestration Service (AOS) can complete application resource orchestration and application design.

- A. True
- B. False

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 69

If an autonomous driving company wants to develop an AI model based on ModelArts, what capabilities of ModelArts can be used? (Multiple choice)

- A. Data processing
- B. Online coding platform
- C. Data annotation
- D. Preset related algorithms for autonomous driving

Answer: A,C ([LEAVE A REPLY](#))

NEW QUESTION: 70

The port of the ELB listener is inconsistent with the port of the back-end server.

- A. False
- B. True

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 71

The transportation management of the logistics industry TMS mainly realizes the intelligent management of the visual monitoring of transportation business processes through consignment note management, order tracking, cargo tracking, personnel management, and transportation industry household management.

Which of the following service capabilities of HUAWEI CLOUD can help logistics companies reduce costs and increase efficiency? (Multiple choice)

- A. Based on HUAWEI CLOUD's rich Paas service and cloud container engine CCE service, it provides a one-stop solution for TMs business with low cost, high reliability, and elastic scalability
- B. Build vehicle and fleet management based on HUAWEI CLOUD IOT service capabilities
- C. Provide full-stack security solutions and security protection methods to protect the safety of freight information and the privacy of vehicle owners and cargo owners
- D. Based on intelligent services such as route optimization, intelligent loading, and outbound picking route planning provided by HUAWEI CLOUD E platform

Answer: (SHOW ANSWER)

NEW QUESTION: 72

For data migration in scenarios where business cannot be interrupted, real-time data synchronization can be achieved through KafkaMirror or other dual-write solutions.

- A. False
- B. True

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 73

The microservice engine provides grayscale publishing between microservices, and supports matching according to the value of a certain field (such as Header) in the Request.

- A. False
- B. True

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 74

Which of the following components can be included in an MRS cluster? (Multiple choice)

- A. MySQL
- B. MongoDB
- C. HBase

D. Flink

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 75

Which of the following options is not a function of the HUAWEI CLOUD RDS Recycle Bin?

- A. After the subscription period instance is unsubscribed and deleted, the instance can be restored from the recycle bin within a limited period of time
- B. After the subscription period instance is frozen and deleted, the instance can be restored from the recycle bin within a limited period of time
- C. After the on-demand instance is deleted, the instance can be restored from the recycle bin within a limited period of time
- D. After the failed instance is deleted, the instance can be restored from the recycle bin within a limited period of time

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 76

What are the advantages of the DWS digital warehouse relocation program? (Multiple choice)

- A. Support PL/pgSQL stored procedure language
- B. Has Oracle migration tools
- C. Has Teradata migration tool
- D. Compatible with standard SQL, reducing the cost of rewriting

Answer: B,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 77

Which of the following Huawei Cloud middleware services can solve the asynchronous message decoupling problem of business applications?

- A. RDS: Relational Database Service
- B. DMS: Distributed Message Service
- C. DCS: Distributed Cache Service
- D. DDM: Distributed database service

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 78

ServiceStage is a one-stop full-stack cloud-native application development and management platform. Which of the following advantages of ServiceStage can support the creation of the strongest cloud-native PaaS service? (Multiple choice)

- A. Development pipeline: help companies quickly build application Alpha, Beta, Gamma, and production environments
- B. Container: The strongest AI container platform, a complete hybrid cloud/multi-cloud solution (cluster federation), K8s open source community leader
- C. APM/AOM: Full link, real-time monitoring of AIOps
- D. Microservices: Service-oriented architecture, agile DevOps

Answer: A,B,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 79

Which of the following descriptions are correct about the pain points of traditional recommendation systems? (Multiple choice)

- A. Poor interpretability
- B. Data sparsity issues
- C. Cold start problem
- D. Recommendations based on historical data

Answer: A,B,C ([LEAVE A REPLY](#))

NEW QUESTION: 80

From the perspective of access and management, what types of blockchain can be divided into? (Multiple choice)

- A. Regular sales
- B. Alliance chain
- C. Public chain
- D. Private chain

Answer: C,D ([LEAVE A REPLY](#))

NEW QUESTION: 81

Regarding the description of HUAWEI CLOUD Application Service Grid, which of the following statements is wrong?

- A. Commercial transformation of the open source Istio project based on Huawei Cloud Container Service
- B. Cloud application service grid development framework is not limited to language
- C. Provide container-based gray release and traffic management capabilities
- D. Need to integrate Istio SDK

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 82

HUAWEI CLOUD provides key management services and docks with multiple basic cloud services to provide convenient data encryption protection for tenants on the cloud.

Which of the following services does not support the direct use of secret key instances?

- A. NAT gateway
- B. Object Storage Service (OBS)
- C. Cloud Disk Service (EVS)
- D. Relational Database Service (RDS)

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 83

Which of the following is the value that the full-stack exclusive solution brings to customers? (Multiple choice)

- A. Technology leadership: service capabilities are synchronized with Huawei's public cloud to maintain technology leadership
- B. Development collaboration: Provide APIs and management tools consistent with Huawei's public cloud to reduce customer development and adaptation costs
- C. Private car compliance: physical isolation can be audited to meet customer security compliance requirements for cloud business
- D. Simple operation and maintenance: customers and Huawei cloud layered operation and maintenance, Huawei provides platform management professional operation and maintenance services, reducing customer operation and maintenance costs

Answer: A,B,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 84

If you need to use FunctionGraph as an APP backend and provide an interface for external applications to access, which type of trigger is recommended for tenants to use?

- A. API Gateway Trigger (APIG)
- B. Timing trigger (TIMER)
- C. Message notification trigger (SMN)
- D. Object storage trigger (OBS)

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 85

Which of the following security strategies does RDS have? (Multiple choice)

- A. Disk encryption
- B. Network isolation-security group
- C. Network isolation-VPC
- D. SSL encryption

Answer: A,B,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 86

Kubernetes is the core open-source project of the CNCF community. Which of the following options are the functions provided by Kubernetes for containerized applications? (Multiple choice)

- A. Resource scheduling
- B. Deployment and running
- C. Service discovery
- D. Expansion and shrinkage

Answer: A,B,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 87

An enterprise's own service capabilities have matured to further enhance the influence of the company in the industry. Attract new partners. Enhance the competitiveness of enterprises. What kind of solution can Huawei Cloud PaaS be used to open the internal service capability of the enterprise to the third party in the form of standard API?

- A. Application micro-service solution
- B. Apply SaaS transformation plan
- C. Capability Open API Gateway
- D. Applicatorization scheme

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 88

Which of the following scenarios can use the HUAWEI CLOUD dialogue robot service? (Multiple choice)

- A. Operational analysis, analyze user behavior based on logs, determine user problem trends, explore hot issues, and continuously optimize the questions and answers system
- B. Automatic response, reducing labor costs
- C. Mining knowledge, mining potential knowledge from user documents or web pages through a graphical interface, helping to quickly build a user knowledge base
- D. Agent assistants, to help agents improve service quality and efficiency

Answer: B,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 89

Based on Application Orchestration Service (AOS), automated operation and maintenance of applications can be realized.

- A. False
- B. True

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 90

The voice recognition service used in the smart outbound scenario is real-time voice recognition.

- A. False

B. True

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 91

Which problem does the DAYU platform service mainly help customers solve?

A. Enterprise Smart Office

B. Lack of ideas and routines for caching in data operations, data cannot be cached out

C. The chimney system has created a large number of data islands. Without unified data standards, comprehensive analysis and data value cannot be performed: In addition, with the rapid development of big data and high development thresholds, it is difficult for companies to train professional and technical personnel teams for data operations.

D. There are many southbound subsystems, and the integration complexity is high, requiring a lot of manpower to integrate construction

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 92

Huawei Cloud is the only founding member of the Cloud Native Foundation (CNCF) in Asia and the first platinum member in China.

A. True

B. False

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 93

Which of the following are the key features of Huawei's CCE cloud container engine? (Multiple choice)

A. Cross-iaaS resource management

B. Resource attribute description

C. Apply full-stack modeling

D. Resource scheduling algorithm

Answer: A,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 94

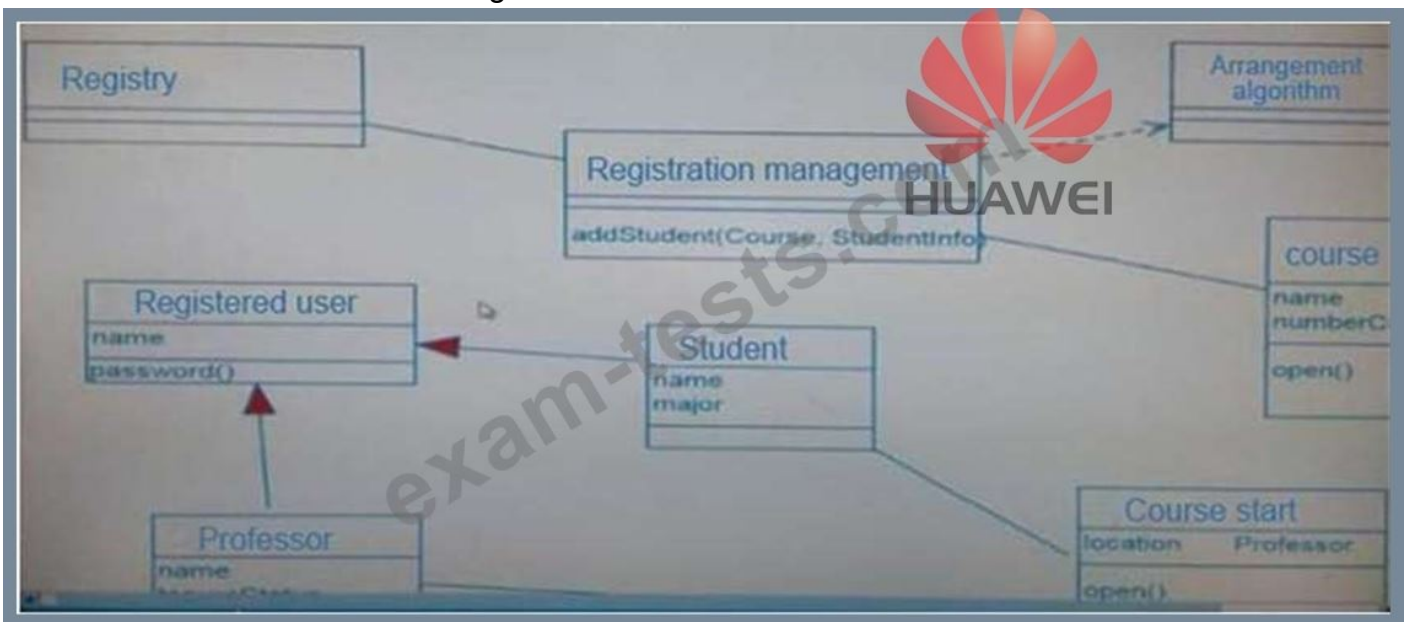

Which of the following are part of Huawei three-dimensional operation and maintenance solution?
(Multiple choice)

- A. Application performance analysis
- B. Infrastructure layer operation and maintenance
- C. Application layer operation and maintenance
- D. Business analysis

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 95

In the UML class diagram below, both students and professors point to the registered user class, and the two arrows indicate a straight line

- A. The relationship is one-way
- B. Students or professors can inquire registered users
- C. Registered users are implementations of students or professors
- D. Students and professors are the specific forms of registered users

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 96

Which of the following components can provide real-time alarm capabilities for the ladder network streaming data processing engine?

- A. Storm
- B. MapReduce
- C. Flume
- D. Flink

Answer: A,D ([LEAVE A REPLY](#))

NEW QUESTION: 97

Which of the following options are the main challenges faced by enterprises in the three-level assessment of the self-built computer room and the guarantee? (Multiple choice)

- A. Professional firewall equipment is required for network boundary security, which is costly
- B. Provide large-bandwidth DDos attack protection, the export network of the computer room cannot meet the requirements
- C. Application logs are required to be stored for 3 months or more, and professional compatible management tools and log storage carriers are required, which is time-consuming and labor-intensive
- D. A professional system audit platform is required to record the operation records of the core system and database

Answer: A,B,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 98

HUAWEI CLOUD tenants can use the cross-region replication function of OBS to implement data remote backup.

- A. False
- B. True

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 99

As the bandwidth of network IO continues to increase, single-core CPUs have bottlenecks in processing network interrupts, which cannot fully meet the needs of network cards. By enabling the multi-queue function of network cards, tenants can distribute the network card interrupts in the elastic cloud server to different CPU for processing. In order to meet the needs of the network card, thereby improving the network PPS and bandwidth performance.

- A. False
- B. True

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 100

In the microservice development lifecycle management, the pipeline plays an important role. What parts of the microservice lifecycle that are not supported by the application development pipeline?

- A. Build
- B. Deployment
- C. Coding
- D. Testing

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 101

The TP99 delay is the longest time required to satisfy 99% of network requests.

There are four requests that take time: 10ms, 100ms, 500ms, and 20ms. Which of the following options is the delay of TP99?

- A. 20ms
- B. 10ms
- C. 500ms
- D. 100ms

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 102

Which of the following features does the HUAWEI CLOUD bastion server service support?
(Multiple choice)

- A. Host account management
- B. Firewall security incident management
- C. Operation and maintenance personnel account and authority management
- D. Linux command audit

Answer: (SHOW ANSWER)

NEW QUESTION: 103

The DAYU standard design module only provides dimensional modeling as a data modeling method.

- A. False
- B. True

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 104

HUAWEI CLOUD tenants only need to pay attention to the low-level virtual machine or bare metal of the cloud container instance.

- A. True
- B. False

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 105

Which of the following scenarios are not suitable for using Hadoop MapReduce? (Multiple choice)

- A. Large-scale batch computing
- B. Streaming computing
- C. Large-scale data analysis
- D. Real-time query

Answer: B,D ([LEAVE A REPLY](#))

NEW QUESTION: 106

In the Internet identity verification scenario, which of the following can be used to prevent cheating attacks?

- A. Face database management
- B. Face search
- C. Face comparison
- D. Live detection

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 107

What are the product advantages of image search? (Multiple choice)

- A. High search accuracy
- B. Simple and efficient
- C. Massive search
- D. Customizable

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 108

In the practical guidance for micro-business models, which micro-service in the following figure is connected to the system through mesher?

- A. Wweather
- B. forecast
- C. weathermapweb
- D. fusionweather

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 109

Which places are the construction scope of the smart park? (Multiple choice)

- A. Urban complex
- B. Highway
- C. Industrial Park
- D. Campus

E. Office building

F. Chemical Park

Answer: A,C,D,E,F ([LEAVE A REPLY](#))

NEW QUESTION: 110

Which of the following services is not a Huawei Cloud PaaS service?

A. ECS, Elastic Cloud Server

B. CCE, Cloud Container Engine

C. ServiceStage, a microservice cloud application platform

D. CPTS, Cloud performance testing service

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 111

The full name of Apdex is the Application Performance Index. An industry standard developed by the Apdex Alliance to evaluate application performance. From the user's point of view, the Apdex standard turns the performance of the application response time into a user satisfaction evaluation of the application performance range of 0-1.

If $0.3 \leq \text{Apdex} \leq 0.75$, which of the following statements is correct?

A. User experience is general

B. User experience is more satisfactory

C. Poor user experience

D. The user experience is unsure good or bad

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 112

An ECS virtual machine can only run one container.

A. True

B. False

Answer: ([SHOW ANSWER](#))
