### NEW QUESTION: 1

You have a Microsoft 365 E5 subscription.

Several users have iOS devices.

You plan to enroll the iOS devices in Microsoft Endpoint Manager.

You need to ensure that you can create an iOS/iPadOS enrollment profile in Microsoft Endpoint Manager.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

#### Answer:

- 1 - From the Microsoft Endpoint Manager admin center, download a certificate signing request.
- 2 - Create a certificate from the Apple push Certificates Portal.
- 3 - Upload an Apple MDM push certificate to Microsoft Endpoint Manager.

Reference:

<https://docs.microsoft.com/en-us/mem/intune/enrollment/apple-mdm-push-certificate-get>

### NEW QUESTION: 2

You have a Microsoft 365 subscription.

You need to be notified if users receive email containing a file that has a virus.

What should you do?

- A. From the Exchange admin center, create an in-place eDiscovery & hold.
- B. From the Security & Compliance admin center, create a data loss prevention (DLP) policy.
- C. From the Exchange admin center, create an anti-malware policy.
- D. From the Exchange admin center, create a mail flow rule.

**Answer: C** ([LEAVE A REPLY](#))

Section: [none]

Explanation/Reference:

<https://docs.microsoft.com/en-us/office365/servicedescriptions/exchange-online-service-description/anti-spam-and-anti-malware-protection>

### **NEW QUESTION: 3**

Your network contains an Active Directory forest named contoso.com that is synced to Microsoft Azure Active Directory (Azure AD).

You use Microsoft System Center Configuration Manager (Current Branch) for device management.

You have the Windows 10 devices shown in the following table.

You configure Configuration Manager co-management as follows:

- \* Automatic enrollment in Intune: Pilot
- \* Pilot collection: Collection2

You configure co-management workloads as shown in the following exhibit.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

### **NEW QUESTION: 4**

You create a Microsoft 365 subscription.

You need to create a deployment plan for Microsoft Azure Advanced Threat Protection (ATP).

Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

Explanation

References:

<https://blog.ahasayen.com/azure-advanced-threat-protection-deployment/>

### **NEW QUESTION: 5**

You have a Microsoft Azure Active Directory (Azure AD) tenant contains the users shown in the following table.

Group3 is a member of Group1.

Your company uses Windows Defender Advanced Threat Protection (ATP). Windows Defender ATP contains the roles shown in the following table.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

References:

<https://docs.microsoft.com/en-us/windows/security/threat-protection/windows-defender-atp/user-roles-windows->

### NEW QUESTION: 6

You have a document in Microsoft OneDrive that is encrypted by using Microsoft Azure Information Protection as shown in the following exhibit.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

#### Answer:

Explanation

References:

<https://docs.microsoft.com/en-us/azure/information-protection/configure-policy-protection>

### NEW QUESTION: 7

You have a Microsoft Azure Active Directory (Azure AD) tenant named contoso.onmicrosoft.com. You have a Microsoft 365 subscription.

You need to ensure that administrators can manage the configuration settings for all the Windows 10 devices in your organization.

What should you configure?

- A. the Enrollment restrictions
- B. the mobile device management (MDM) authority
- C. the Exchange on-premises access settings
- D. the Windows enrollment settings

Answer: ([SHOW ANSWER](#))

Explanation/Reference:

References:

<https://docs.microsoft.com/en-us/intune/mdm-authority-set>

### NEW QUESTION: 8

You have a Microsoft Azure Activity Directory (Azure AD) tenant contains the users shown in the following table.

Group3 is a member of Group1.

Your company uses Windows Defender Advanced Threat Protection (ATP). Windows Defender ATP contains the roles shown in the following table.

Windows Defender ATP contains the device groups shown in the following table.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

#### Answer:

**NEW QUESTION: 9**

Your company has a Microsoft 365 subscription.

You need to configure Microsoft 365 to meet the following requirements:

- \* Malware found in email attachments must be quarantined for 20 days.
- \* The email address of senders to your company must be verified.

Which two options should you configure in the Security & Compliance admin center? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

**NEW QUESTION: 10**

Your company has a Microsoft 365 subscription that uses an Azure Directory (Azure AD) tenant named Contoso.com. The tenant contains the users shown in the following table.

You create a retention label named Label1 that has the following configurations:

Retains content for five years.

Automatically deletes all content that is older than five years.

You turn on Auto labeling for Label1 by using a policy named Policy1. Policy1 has the following configurations:

- \* Retains content for five years
- \* Automatically deletes all content that is older than five years

You turn on Auto labeling for Label 1 by using a policy named Policy1. Policy has the following configurations:

- \* Applies to content that contains the word Merger
- \* Specifies the OneDrive accounts and SharePoint sites locations

You run the following command

Set-RetentionCompliancePolicy -Policy Policy1 -RestrictiveRetention \$true -Force

For each of the following statements select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

**NEW QUESTION: 11**

You need to ensure that User2 can review the audit logs. The solutions must meet the technical requirements.

To which role group should you add User2, and what should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Reference:

<https://docs.microsoft.com/en-us/microsoft-365/compliance/search-the-audit-log-in-security-and-compliance?view=o365-worldwide>

**NEW QUESTION: 12**

Your network contains an Active Directory domain named contoso.com. The domain contains the file servers shown in the following table.

A file named File1.abc is stored on Server1. A file named File2.abc is stored on Server2. Three apps named App1, App2, and App3 all open files that have the .abc file extension.

You implement Windows Information Protection (WIP) by using the following configurations:

Exempt apps: App2

Protected apps: App1

Windows Information Protection mode: Block

Network boundary: IPv4 range of: 192.168.1.1-192.168.1.255

You need to identify the apps from which you can open File1.abc.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

References:

<https://docs.microsoft.com/en-us/windows/security/information-protection/windows-information-protection/create-wip-policy-using-intune-azure>

**NEW QUESTION: 13**

You have a Microsoft 365 tenant.

All users are assigned the Enterprise Mobility + Security license.

You need to ensure that when users join their device to Microsoft Azure Active Directory (Azure AD), the device is enrolled in Microsoft Intune automatically.

What should you configure?

- A. Enrollment restrictions from the Device Management admin center
- B. device enrollment managers from the Device Management admin center
- C. MAM User scope from the Azure Active Directory admin center
- D. MDM User scope from the Azure Active Directory admin center

**Answer: D (LEAVE A REPLY)**

Explanation/Reference:

References:

<https://docs.microsoft.com/en-us/intune/windows-enroll>

**NEW QUESTION: 14**

You need to meet the Intune requirements for the Windows 10 devices.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

References:

<https://docs.microsoft.com/en-us/intune/windows-enroll>

### NEW QUESTION: 15

You have a Microsoft 365 subscription.

You create a Microsoft Cloud App Security policy named Risk1 based on the Logon from a risky IP address template as shown in the following exhibit.

You have two users named User1 and User2. Each user signs in to Microsoft SharePoint Online from a risky IP address 10 times within 24 hours.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

**Answer:**

### NEW QUESTION: 16

You need to recommend a solution for the security administrator. The solution must meet the technical requirements.

What should you include in the recommendation?

- A. Microsoft Azure Active Directory (Azure AD) Privileged Identity Management
- B. Microsoft Azure Active Directory (Azure AD) Identity Protection
- C. Microsoft Azure Active Directory (Azure AD) conditional access policies
- D. Microsoft Azure Active Directory (Azure AD) authentication methods

**Answer:** ([SHOW ANSWER](#))

Section: [none]

Explanation/Reference:

References:

<https://docs.microsoft.com/en-us/azure/active-directory/conditional-access/untrusted-networks>

Question Set 1

**Valid MS-101 Dumps** shared by BraindumpsPass.com for Helping Passing MS-101 Exam!

### NEW QUESTION: 17

You have a Microsoft Azure Active Directory (Azure AD) tenant named Contoso.com.

You create a Microsoft Defender for identity instance Contoso.

The tenant contains the users shown in the following table.

You need to modify the configuration of the Defender for identify sensors.

Solutions: You instruct User3 to modify the Defender for identity sensor configuration.

Does this meet the goal?

**A.** No

**B.** Yes

**Answer:** ([SHOW ANSWER](#))

### **NEW QUESTION: 18**

You have a new Microsoft 365 subscription.

A user named User1 has a mailbox in Microsoft Exchange Online.

You need to log any changes to the mailbox folder permissions of User1.

Which command should you run? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

To enable auditing for a single mailbox (in this example, belonging to Holly Sharp), use this PowerShell command: Set-Mailbox username -AuditEnabled \$true References:

<https://support.microsoft.com/en-us/help/4026501/office-auditing-in-office-365-for-admins>

<https://docs.microsoft.com/en-us/powershell/module/exchange/mailboxes/set-mailbox?view=exchange-ps>

### **NEW QUESTION: 19**

You need to configure a conditional access policy to meet the compliance requirements.

You add Exchange Online as a cloud app.

Which two additional settings should you configure in Policy1? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

### **NEW QUESTION: 20**

You need to ensure that User1 can enroll the devices to meet the technical requirements. What should you do?

**A.** From the Azure Active Directory admin center, assign User1 the Cloud device administrator role.

**B.** From the Azure Active Directory admin center, configure the Maximum number of devices per user setting.

**C.** From the Intune admin center, add User1 as a device enrollment manager.

**D.** From the Intune admin center, configure the Enrollment restrictions.

**Answer: C ([LEAVE A REPLY](#))**

References:

<https://docs.microsoft.com/en-us/sccm/mdm/deploy-use/enroll-devices-with-device-enrollment-manager>

Topic 2,

Overview

Existing Environment

This is a case study Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. When you are ready to answer a question, click the Question button to return to the question.

Current Infrastructure

A . Datum recently purchased a Microsoft 365 subscription.

All user files are migrated to Microsoft 365.

All mailboxes are hosted in Microsoft 365. The users in each office have email suffixes that include the country of the user, for example, user1@us.adatum.com or user2#uk.ad3tum.com.

Each office has a security information and event management (SIEM) appliance. The appliances come from three different vendors.

A . Datum uses and processes Personally Identifiable Information (PII).

Problem Statements

Requirements

A . Datum entered into litigation. The legal department must place a hold on all the documents of a user named User1 that are in Microsoft 365.

Business Goals

A . Datum wants to be fully compliant with all the relevant data privacy laws in the regions where it operates.

A . Datum wants to minimize the cost of hardware and software whenever possible.

Technical Requirements

- \* Centrally perform log analysis for all offices.
- \* Aggregate all data from the SIEM appliances to a central cloud repository for later analysis.
- \* Ensure that a SharePoint administrator can identify who accessed a specific file stored in a document library.
- \* Provide the users in the finance department with access to Service assurance information in Microsoft Office 365.
- \* Ensure that documents and email messages containing the PII data of European Union (EU) citizens are preserved for 10 years.
- \* If a user attempts to download 1,000 or more files from Microsoft SharePoint Online within 30 minutes, notify a security administrator and suspend the user's user account.
- \* A security administrator requires a report that shows which Microsoft 365 users signed in. Based on the report, the security administrator will create a policy to require multi-factor authentication when a sign in is high risk.
- \* Ensure that the users in the New York office can only send email messages that contain sensitive U.S. PII data to other New York office users. Email messages must be monitored to ensure compliance. Auditors in the New York office must have access to reports that show the sent and received email messages containing sensitive U.S. PII data.

### **NEW QUESTION: 21**

You have a data loss prevention (DLP) policy.

You need to increase the likelihood that the DLP policy will apply to data that contains medical terms from the International Classification of Diseases (ICD-9-CM). The solution must minimize the number of false positives.

Which two settings should you modify? To answer, select the appropriate settings in the answer area.

NOTE: Each correct selection is worth one point.

#### **Answer:**

Explanation

References:

<https://docs.microsoft.com/en-us/office365/securitycompliance/data-loss-prevention-policies>

<https://docs.microsoft.com/en-us/office365/securitycompliance/what-the-sensitive-information-types-look-for#in>

### **NEW QUESTION: 22**

You have a Microsoft 365 subscription.

You configure a data loss prevention (DLP) policy.

You discover that users are incorrectly marking content as false positive and bypassing the OLP policy.

You need to prevent the users from bypassing the DLP policy.

What should you configure?

**A.** actions

- B. user overrides
- C. exceptions
- D. incident reports

**Answer: C** ([LEAVE A REPLY](#))

#### **NEW QUESTION: 23**

You have Microsoft 365 subscription.

You create an alert policy as shown in the following exhibit.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

**Answer:**

#### **NEW QUESTION: 24**

You have several devices enrolled in Microsoft Intune.

You have a Microsoft Azure Active Directory (Azure AD) tenant that includes the users shown in the following table.

The device type restrictions in Intune are configured as shown in the following table.

You add User3 as a device enrollment manager in Intune.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

#### **NEW QUESTION: 25**

Your network contains an Active Directory forest named contoso.com that is synced to Microsoft Azure Active Directory (Azure AD).

You use Microsoft System Center Configuration Manager (Current Branch) for device management.

You have the Windows 10 devices shown in the following table.

You configure Configuration Manager co-management as follows:

Automatic enrollment in Intune: Pilot

Pilot collection: Collection2

You configure co-management workloads as shown in the following exhibit.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

#### **NEW QUESTION: 26**

You have an Azure Active Directory (Azure AD) tenant that contains two users named User1 and User2.

On September 5, 2019, you create and enforce a terms of use (ToU) in the tenant. The ToU has the following settings:

Name: Terms1

Display name: Terms1 name

Require users to expand the terms of use: Off

Require users to consent on every device: Off

Expire consents: On

Expire starting on: October 10, 2019

Frequency: Monthly

User1 accepts Terms1 on September 5, 2019. User2 accepts Terms1 on October 5, 2019.

When will Terms1 expire for the first time for each user? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Reference:

<https://docs.microsoft.com/en-us/azure/active-directory/conditional-access/terms-of-use>

## **NEW QUESTION: 27**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 E5 subscription.

You create an account for a new security administrator named SecAdmin1.

You need to ensure that SecAdmin1 can manage Office 365 Advanced Threat Protection (ATP) settings and policies for Microsoft Teams, SharePoint, and OneDrive.

Solution: From the Azure Active Directory admin center, you assign SecAdmin1 the Teams Service Administrator role.

Does this meet the goal?

**A.** Yes

**B.** No

**Answer: B (LEAVE A REPLY)**

Section: [none]

Explanation:

You need to assign the Security Administrator role.

Reference:

<https://docs.microsoft.com/en-us/microsoft-365/security/office-365-security/office-365-atp?view=o365-worldwide>

**NEW QUESTION: 28**

You configure a conditional access policy. The locations settings are configured as shown in the Locations exhibit. (Click the Locations tab.)

The users and groups settings are configured as shown in the Users and Groups exhibit. (Click Users and Groups tab.)

Members of the Security reader group report that they cannot sign in to Microsoft Active Directory (Azure AD) on their device while they are in the office.

You need to ensure that the members of the Security reader group can sign in to Azure AD on their device while they are in the office. The solution must use the principle of least privilege.

What should you do?

- A. From the conditional access policy, configure the device state.
- B. From the Azure Active Directory admin center, create a custom control.
- C. From the Intune admin center, create a device compliance policy.
- D. From the Azure Active Directory admin center, create a named location.

**Answer: D** ([LEAVE A REPLY](#))

Explanation/Reference:

References:

<https://docs.microsoft.com/en-us/azure/active-directory/conditional-access/location-condition>

**NEW QUESTION: 29**

The users at your company use Dropbox Business to store documents. The users access Dropbox Business by using the MyApps portal.

You need to ensure that user access to Dropbox Business is authenticated by using a Microsoft 365 identity.

The documents must be protected if the data is downloaded to a device that is not trusted.

What should you do?

- A. From the Device Management admin center, configure conditional access settings.
- B. From the Azure Active Directory admin center, configure the device settings.
- C. From the Azure Active Directory admin center, configure application proxy settings.
- D. From the Device Management admin center, configure device enrollment settings.

**Answer: C** ([LEAVE A REPLY](#))

Azure Active Directory's Application Proxy provides secure remote access to on-premises web applications.

After a single sign-on to Azure AD, users can access both cloud and on-premises applications through an external URL or an internal application portal.

Reference:

<https://docs.microsoft.com/en-us/azure/active-directory/manage-apps/application-proxy>

**NEW QUESTION: 30**

You have the Microsoft Azure Advanced Threat Protection (ATP) workspace shown in the Workspace exhibit.

(Click the Workspace tab.)

The sensors settings for the workspace are configured as shown in the Sensors exhibit. (Click the Sensors tab.)

You need to ensure that Azure ATP stores data in Asia.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

Explanation

<https://docs.microsoft.com/en-us/azure-advanced-threat-protection/install-atp-step1>

### NEW QUESTION: 31

You have a Microsoft 365 tenant.

You have a line-of-business application named App1 that users access by using the My Apps portal.

After some recent security breaches, you implement a conditional access policy for App1 that uses Conditional Access App Control.

You need to be alerted by email if impossible travel is detected for a user of App1. The solution must ensure that alerts are generated for App1 only.

What should you do?

- A. From Microsoft Cloud App Security, create a Cloud Discovery anomaly detection policy.
- B. From Microsoft Cloud App Security, modify the impossible travel alert policy.
- C. From Microsoft Cloud App Security, create an app discovery policy.
- D. From the Azure Active Directory admin center, modify the conditional access policy.

**Answer:** ([SHOW ANSWER](#))

Section: [none]

Explanation/Reference:

References:

<https://docs.microsoft.com/en-us/cloud-app-security/cloud-discovery-anomaly-detection-policy>

### NEW QUESTION: 32

Your company has a Microsoft Azure Active Directory (Azure AD) tenant named contoso.com. You sign up for Microsoft Store for Business.

The tenant contains the users shown in the following table.

Microsoft Store for Business has the following Shopping behavior settings:

\* Allow users to shop is set to On.

\* Make everyone a Basic Purchaser is set to Off.

You need to identify which users can install apps from the Microsoft for Business private store.

Which users should you identify?

- A. User1 and User2 only
- B. User1 only
- C. User1, User2, User3, and User4 only
- D. User3 and User4 only
- E. User1, User2, User3, User4, and User5

**Answer: A (LEAVE A REPLY)**

Allow users to shop controls the shopping experience in Microsoft Store for Education. When this setting is on, Purchasers and Basic Purchasers can purchase products and services from Microsoft Store for Education.

### NEW QUESTION: 33

You need to configure a conditional access policy to meet the compliance requirements.

You add Exchange Online as a cloud app.

Which two additional settings should you configure in Policy1? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

### NEW QUESTION: 34

Your network contains an on-premises Active Directory domain that syncs to Azure Active Directory (Azure AD). The domain contains the servers shown in the following table.

You use Azure Information Protection.

You need to ensure that you can apply Azure Information Protection labels to the file stores on Server1.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

Explanation

<https://docs.microsoft.com/en-us/azure/information-protection/configure-servers-rms-connector>

### NEW QUESTION: 35

Your company has a Microsoft 365 subscription that uses an Azure Active Directory (Azure AD) tenant named contoso.com. The tenant contains computers that run Windows 10 Enterprise and are managed by using Microsoft Intune. The computers are configured as shown in the following table.

You plan to implement Windows Defender Application Guard for contoso.com.

You need to identify on which two Windows 10 computers Windows Defender Application Guard can be installed.

Which two computers should you identify? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. Computer1

B. Computer3

C. Computer2

D. Computer4

**Answer: B,C** ([LEAVE A REPLY](#))

Section: [none]

Explanation/Reference:

<https://docs.microsoft.com/en-us/windows/security/threat-protection/windows-defender-application-guard/reqs-wd-app-guard>

### NEW QUESTION: 36

You configure a conditional access policy. The locations settings are configured as shown in the Locations exhibit. (Click the Locations tab.)

The users and groups settings are configured as shown in the Users and Groups exhibit. (Click Users and Groups tab.)

Members of the Security reader group report that they cannot sign in to Microsoft Active Directory (Azure AD) on their device while they are in the office.

You need to ensure that the members of the Security reader group can sign in to Azure AD on their device while they are in the office. The solution must use the principle of least privilege.

What should you do?

A. From the conditional access policy, configure the device state.

B. From the Azure Active Directory admin center, create a custom control.

C. From the Intune admin center, create a device compliance policy.

D. From the Azure Active Directory admin center, create a named location.

**Answer: D** ([LEAVE A REPLY](#))

Reference:

<https://docs.microsoft.com/en-us/azure/active-directory/conditional-access/location-condition>

### NEW QUESTION: 37

## HOTSPOT

You have a Microsoft 365 subscription.

You have a group named Support. Users in the Support group frequently send email messages to external users.

The manager of the Support group wants to randomly review messages that contain attachments. You need to provide the manager with the ability to review messages that contain attachments sent from the Support group users to external users. The manager must have access to only 10 percent of the messages.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

**Answer:**

Section: [none]

Explanation/Reference:

References:

<https://docs.microsoft.com/en-us/office365/securitycompliance/supervision-policies>

## NEW QUESTION: 38

Your company has a Microsoft 365 subscription that uses an Azure Active Directory (Azure AD) tenant named contoso.com. The tenant contains computers that run Windows 10 Enterprise and are managed by using Microsoft Intune. The computers are configured as shown in the following table.

You plan to implement Windows Defender Application Guard for contoso.com.

You need to identify on which two Windows 10 computers Windows Defender Application Guard can be installed.

Which two computers should you identify? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. Computer1

B. Computer3

C. Computer2

D. Computer4

**Answer: B,C ([LEAVE A REPLY](#))**

<https://docs.microsoft.com/en-us/windows/security/threat-protection/windows-defender-application-guard/reqs-wd-app-guard>

## NEW QUESTION: 39

You have three devices enrolled in Microsoft Intune as shown in the following table.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

### NEW QUESTION: 40

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your network contains an Active Directory domain named contoso.com that is synced to Microsoft Azure Active Directory (Azure AD).

You manage Windows 10 devices by using Microsoft System Center Configuration Manager (Current Branch).

You configure a pilot for co-management.

You add a new device named Device1 to the domain. You install the Configuration Manager client on Device1.

You need to ensure that you can manage Device1 by using Microsoft Intune and Configuration Manager.

Solution: Define a Configuration Manager device collection as the pilot collection. Add Device1 to the collection.

Does this meet the goal?

A. Yes

B. NO

**Answer: A (LEAVE A REPLY)**

Device1 has the Configuration Manager client installed so you can manage Device1 by using Configuration Manager. To manage Device1 by using Microsoft Intune, the device has to be enrolled in Microsoft Intune. In the Co-management Pilot configuration, you configure a Configuration Manager Device Collection that determines which devices are auto-enrolled in Microsoft Intune. You need to add Device1 to the Device Collection so that it auto-enrolls in Microsoft Intune. You will then be able to manage Device1 using Microsoft Intune. Reference: <https://docs.microsoft.com/en-us/configmgr/comanage/how-to-enable>

### NEW QUESTION: 41

Your company uses on-premises Windows Server File Classification Infrastructure (FCI). Some documents on the on-premises file servers are classified as Confidential.

You migrate the files from the on-premises file servers to Microsoft SharePoint Online.

You need to ensure that you can implement data loss prevention (DLP) policies for the uploaded files based on the Confidential classification.

What should you do first?

A. From the SharePoint admin center, configure hybrid search.

B. From the SharePoint admin center, create a managed property.

C. From the Security & Compliance Center PowerShell, run the New-DataClassificationcmdlet.

D. From the Security & Compliance Center PowerShell, run the New-DlpComplianceRulecmdlet.

**Answer:** ([SHOW ANSWER](#))

Section: [none]

Explanation/Reference:

<https://docs.microsoft.com/en-us/powershell/module/exchange/policy-and-compliance-dlp/new-dataclassification?view=exchange-ps>

#### **NEW QUESTION: 42**

Your company has a Microsoft 365 subscription that uses an Azure Active Directory (Azure AD) tenant named contoso.com. The company stores 2 TBs of data in SharePoint Online document libraries.

The tenant has the labels shown in the following table.

From the Azure portal, you activate unified labeling.

For each of the following statements, select yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

#### **NEW QUESTION: 43**

You create a Microsoft 365 subscription.

You need to create a deployment plan for Microsoft Azure Advanced Threat Protection (ATP).

Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

Explanation

References:

<https://blog.ahasayen.com/azure-advanced-threat-protection-deployment/>

#### **NEW QUESTION: 44**

You have several devices enrolled in Microsoft Intune.

You have a Microsoft Azure Active Directory (Azure AD) tenant that includes the users shown in the following table.

The device limit restrictions in Intune are configured as shown in the following table.

You add User3 as a device enrollment manager in Intune.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

<https://docs.microsoft.com/en-us/sccm/mdm/deploy-use/enroll-devices-with-device-enrollment-manager>

### NEW QUESTION: 45

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your network contains an on-premises Active Directory domain. The domain contains 2,000 computers that run Windows 8.1 and have applications installed as shown in the following table.

You enroll all the computers in Upgrade Readiness.

You need to ensure that App1 and App2 have an UpgradeDecision status of Ready to upgrade.

Solution: You set the ReadyForWindows status of App1 to Highly adopted.

Does this meet the goal?

A. Yes

B. No

**Answer:** ([SHOW ANSWER](#))

App1 has a "low install count" (2% or less) so will be Ready to upgrade. We need to change the setting for App2.

References:

<https://docs.microsoft.com/en-us/windows/deployment/upgrade/upgrade-readiness-identify-apps>

### NEW QUESTION: 46

Your company uses Windows Defender Advanced Threat Protection (ATP). Windows Defender ATP includes the machine groups shown in the following table.

You onboard a computer named computer1 to Windows Defender ATP as shown in the following exhibit.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

Dumps, **40%OFF** Special Discount: **Exam-Tests**)

### NEW QUESTION: 47

From the Security & Compliance admin center, you create a content export as shown in the exhibit. (Click the Exhibit tab.)

What will be excluded from the export?

- A. a 60-MB DOCX file
- B. a 12-MB BMP file
- C. a 5-KB RTF file
- D. a 100-MB VSDX file

**Answer:** ([SHOW ANSWER](#))

Unrecognized file formats are excluded from the search.

Incorrect Answers:

A: DOCX is a supported Microsoft PowerPoint file format.

C: RTF is a supported Rich Text File format.

D: VSDX is a supported Microsoft Visio file format.

References:

<https://docs.microsoft.com/en-us/office365/securitycompliance/export-a-content-search-report>

#### **NEW QUESTION: 48**

You have a Microsoft Azure Activity Directory (Azure AD) tenant contains the users shown in the following table.

Group3 is a member of Group1.

Your company uses Windows Defender Advanced Threat Protection (ATP). Windows Defender ATP contains the roles shown in the following table.

Windows Defender ATP contains the device groups shown in the following table.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

#### **NEW QUESTION: 49**

You have 100 computers that run Windows 8.1 and are enrolled in Upgrade Readiness.

Two of the computers are configured as shown in the following table.

From Upgrade Readiness, you view the applications shown in the following table.

You enroll a computer named Computer3 in Upgrade Readiness. Computer3 has the following configurations:

- \* 8 GB of memory
- \* 64-bit architecture
- \* An application named App3 installed

App3 is installed on Computer3 only.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

### NEW QUESTION: 50

You need to configure automatic enrollment in Intune. The solution must meet the technical requirements.

What should you configure, and to which group should you assign the configurations? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Reference:

<https://docs.microsoft.com/en-us/mem/intune/enrollment/windows-enroll>

### NEW QUESTION: 51

You have a Microsoft 365 E5 tenant.

You need to evaluate compliance with European Union privacy regulations for customer data.

What should you do in the Microsoft 365 compliance center?

- A. Create a Data Subject Request (DSR)
- B. Create a data loss prevention (DLP) policy for General Data Protection Regulation (GDPR) data
- C. Create an assessment based on the EU GDPR assessment template
- D. Create an assessment based on the Data Protection Baseline assessment template

**Answer:** ([SHOW ANSWER](#))

Reference:

<https://docs.microsoft.com/en-us/compliance/regulatory/gdpr-action-plan>

### NEW QUESTION: 52

You have a Microsoft 365 subscription that uses a default domain named contoso.com.

Three files were created on February 1, 2019, as shown in the following table.

On March 1, 2019, you create two retention labels named Label1 and Label2.

The settings for Label1 are configured as shown in the Label1 exhibit. (Click the Label1 tab.)

The settings for Label2 are configured as shown in the Label2 exhibit. (Click the Label2 tab.)

You apply the retention labels to Exchange email, SharePoint sites, and OneDrive accounts.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

Box 1: No

Retention overrides deletion.

Box 2: No

Content in a document library will be moved to the first-stage Recycle Bin within 7 days of disposition, and then permanently deleted another 93 days after that. Thus 100 days in total.

Box 3: No

Items in an Exchange mailbox will be permanently deleted within 14 days of disposition.

### **NEW QUESTION: 53**

You need to create the Microsoft Store for Business.

Which user can create the store?

A. User2

B. User3

C. User4

D. User5

**Answer: C** ([LEAVE A REPLY](#))

References:

<https://docs.microsoft.com/en-us/microsoft-store/roles-and-permissions-microsoft-store-for-business>

Topic 2, A . Datum Case Study

Overview Existing Environment

This is a case study Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. When you are ready to answer a question, click the Question button to return to the question.

Current Infrastructure

A . Datum recently purchased a Microsoft 365 subscription.

All user files are migrated to Microsoft 365.

All mailboxes are hosted in Microsoft 365. The users in each office have email suffixes that include the country of the user, for example, user1@us.adatum.com or user2#uk.ad3tum.com. Each office has a security information and event management (SIEM) appliance. The appliances come from three different vendors.

A . Datum uses and processes Personally Identifiable Information (PII).

Problem Statements

Requirements

A . Datum entered into litigation. The legal department must place a hold on all the documents of a user named User1 that are in Microsoft 365.

Business Goals

A . Datum wants to be fully compliant with all the relevant data privacy laws in the regions where it operates.

A . Datum wants to minimize the cost of hardware and software whenever possible.

Technical Requirements

A . Datum identifies the following technical requirements:

- \* Centrally perform log analysis for all offices.
- \* Aggregate all data from the SIEM appliances to a central cloud repository for later analysis.
- \* Ensure that a SharePoint administrator can identify who accessed a specific file stored in a document library.
- \* Provide the users in the finance department with access to Service assurance information in Microsoft Office 365.
- \* Ensure that documents and email messages containing the PII data of European Union (EU) citizens are preserved for 10 years.
- \* If a user attempts to download 1,000 or more files from Microsoft SharePoint Online within 30 minutes, notify a security administrator and suspend the user's user account.
- \* A security administrator requires a report that shows which Microsoft 365 users signed in. Based on the report, the security administrator will create a policy to require multi-factor authentication when a sign in is high risk.
- \* Ensure that the users in the New York office can only send email messages that contain sensitive US. PII data to other New York office users. Email messages must be monitored to ensure compliance. Auditors in the New York office must have access to reports that show the sent and received email messages containing sensitive U.S. PII data.

## **NEW QUESTION: 54**

You have a Microsoft 365 subscription.

All users have their email stored in Microsoft Exchange Online.

In the mailbox of a user named User1, you need to preserve a copy of all the email messages that contain the word ProjectX.

What should you do first?

**A.** From the Exchange admin center create a mail flow rule.

**B.** From Microsoft 365 Defender, start a message trace.

C. From the Microsoft Purview compliance portal, create a label and a label policy.

D. From Microsoft Defender for Cloud Apps, create an activity policy.

**Answer: C** ([LEAVE A REPLY](#))

### NEW QUESTION: 55

You have a Microsoft 365 subscription that uses a default domain named contoso.com.

Three files were created on February 1, 2019, as shown in the following table.

On March 1, 2019, you create two retention labels named Label1 and Label2.

The settings for Label1 are configured as shown in the Label1 exhibit. (Click the Label1 tab.)

The settings for Label2 are configured as shown in the Label2 exhibit. (Click the Label2 tab.)

You apply the retention labels to Exchange email, SharePoint sites, and OneDrive accounts.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

Box 1: No

Retention overrides deletion.

Box 2: No

Content in a document library will be moved to the first-stage Recycle Bin within 7 days of disposition, and then permanently deleted another 93 days after that. Thus 100 days in total.

Box 3: No

Items in an Exchange mailbox will be permanently deleted within 14 days of disposition.

### NEW QUESTION: 56

You need to configure the information governance settings to meet the technical requirements.

Which type of policy should you configure, and how many policies should you configure? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

### NEW QUESTION: 57

You have a Microsoft 365 tenant.

All users are assigned the Enterprise Mobility + Security license.

You need to ensure that when users join their device to Microsoft Azure Active Directory (Azure AD), the

device is enrolled in Microsoft Intune automatically.

What should you configure?

- A. Enrollment restrictions from the Intune admin center
- B. device enrollment managers from the Intune admin center
- C. MAM User scope from the Azure Active Directory admin center
- D. MDM User scope from the Azure Active Directory admin center

**Answer:** ([SHOW ANSWER](#))

References:

<https://docs.microsoft.com/en-us/intune/windows-enroll>

#### NEW QUESTION: 58

You need to meet the technical requirement for large-volume document retrieval.

What should you create?

- A. an activity policy from Microsoft Cloud App Security
- B. a data loss prevention (DLP) policy from the Security & Compliance admin center
- C. a file policy from Microsoft Cloud App Security
- D. an alert policy from the Security & Compliance admin center

**Answer:** ([SHOW ANSWER](#))

Section: [none]

Explanation/Reference:

<https://docs.microsoft.com/en-us/office365/securitycompliance/activity-policies-and-alerts>

Question Set 1

#### NEW QUESTION: 59

You have an eDiscovery case shown in the follow table.

For each of the following statements select yes if the statement is true. Otherwise, select NO.

NOTE: each correct selection is worth one point.

**Answer:**

#### NEW QUESTION: 60

Your company has a Microsoft 365 subscription. The subscription contains 500 devices that run Windows 10 and 100 devices that run iOS.

You need to create Microsoft Intune device configuration profiles to meet the following requirements:

- \* Configure Wi-Fi connectivity to a secured network named ContosoNet.
- \* Require passwords of at least six characters to lock the devices.

What is the minimum number of device configuration profiles that you should create?

- A. 4
- B. 2
- C. 1

**Answer:** B ([LEAVE A REPLY](#))

Section: [none]

### NEW QUESTION: 61

Your network contains an on-premises Active Directory domain that syncs to Azure Active Directory (Azure AD).

The domain contains two servers named Server1 and Server2 that run Windows Server 2016. Server1 has the File Server Resource Manager role service installed.

You need to configure Server1 to use the Azure Rights Management (Azure RMS) connector. You install the Microsoft Management connector on Server1.

What should you do next on Server1?

- A. Run the GenConnectorConfig.ps1 script.
- B. Configure the URL of the AIPMigrated group.
- C. Enable BitLocker Drive Encryption (BitLocker).
- D. Install a certification authority (CA).

**Answer: A** ([LEAVE A REPLY](#))

If you want to use the server configuration tool for the RMS connector, to automate the configuration of registry settings on your on-premises servers, download and run the GenConnectorConfig.ps1 script.

<https://docs.microsoft.com/en-us/azure/information-protection/install-configure-rms-connector#installing-the-rms-connector>

#### **NEW QUESTION: 64**

You have a Microsoft Azure Active Directory (Azure AD) tenant named contoso.onmicrosoft.com.

Your company implements Windows Information Protection (WIP).

You need to modify which users and applications are affected by WIP.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

References:

<https://docs.microsoft.com/en-us/windows/security/information-protection/windows-information-protection/crea>

#### **NEW QUESTION: 65**

You have a document in Microsoft OneDrive that is encrypted by using Microsoft Azure Information Protection as shown in the following exhibit.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

References:

<https://docs.microsoft.com/en-us/azure/information-protection/configure-policy-protection>

#### **NEW QUESTION: 66**

Your company has a Microsoft 365 subscription that contains the domains shown in the following table.

The company plans to add a custom domain named fabrikam.com to the subscription, and then to enable enrollment of devices to Endpoint Manager by using auto-discovery for fabrikam.com. You need to add a DNS record to the fabrikam.com domain to enable device enrollment by using auto- discovery.

Which record type should you use for the new record?

- A. PTR
- B. SRV
- C. CNAME
- D. TXT

**Answer:** ([SHOW ANSWER](#))

Explanation/Reference:

<https://docs.microsoft.com/en-us/mem/intune/enrollment/windows-enroll#simplify-windows-enrollment-without- azure-ad-premium>

### NEW QUESTION: 67

You have a Microsoft 365 E5 tenant that contains the users shown in the following table.

You purchase the devices shown in the following table.

In Microsoft Endpoint Manager, you create an enrollment status page profile that has the following settings:

- \* Show app and profile configuration progress: Yes
- \* Allow users to collect logs about installation errors: Yes
- \* Only show page to devices provisioned by out-of-box experience (OOBE): No
- \* Assignments: Group2

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

Graphical user interface, text, application, email Description automatically generated

Reference:

<https://docs.microsoft.com/en-us/mem/intune/enrollment/windows-enrollment-status>

### NEW QUESTION: 68

You have a Microsoft 365 subscription.

You configure a data loss prevention (DLP) policy.

You discover that users are incorrectly marking content as false positive and bypassing the DLP policy.

You need to prevent the users from bypassing the DLP policy.

What should you configure?

- A. incident reports
- B. actions
- C. exceptions

D. user overrides

**Answer: D** ([LEAVE A REPLY](#))

Explanation/Reference:

References:

<https://docs.microsoft.com/en-us/office365/securitycompliance/data-loss-prevention-policies>

### NEW QUESTION: 69

You have a Microsoft 365 ES tenant.

You have the alerts shown in the following exhibit.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

**Answer:**

### NEW QUESTION: 70

You have a Microsoft 365 subscription.

You have the devices shown in the following table.

You need to onboard the devices to Windows Defender Advanced Threat Protection (ATP). The solution must avoid installing software on the devices whenever possible.

Which onboarding method should you use for each operating system? To answer, drag the appropriate methods to the correct operating systems. Each method may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

### NEW QUESTION: 71

A user named User1 has files in Microsoft OneDrive as shown in the following table.

On February 1, 2019, you apply a retention policy named Policy1 as shown in the following exhibit.

On February 5, 2019, User1 edits File2.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

**NEW QUESTION: 72**

You plan to implement the endpoint protection device configuration profiles to support the planned changes.

You need to identify which devices will be supported, and how many profiles you should implement.

What should you identify? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

Table Description automatically generated

Reference:

<https://docs.microsoft.com/en-us/mem/intune/configuration/device-profile-create>

**NEW QUESTION: 73**

You have a Microsoft 365 E5 subscription that contains the users shown in the following table. In Microsoft Endpoint Manager, you have the Policies for Office apps settings shown in the following table.

The policies use the settings shown in the following table.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Reference:

<https://docs.microsoft.com/en-us/deployoffice/overview-office-cloud-policy-service>

**NEW QUESTION: 74**

You have a Microsoft 365 E5 subscription that uses Microsoft Intune.

You have devices enrolled in Intune as shown in the following table.

You create the device configuration profiles shown in the following table.

Which profiles will be applied to each device? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

Graphical user interface, text, application, table Description automatically generated

**NEW QUESTION: 75**

Your company purchases a cloud app named App1.

You plan to publish App1 by using a conditional access policy named Policy1.

You need to ensure that you can control access to App1 by using a Microsoft Cloud App Security session policy.

Which two settings should you modify in Policy1? To answer, select the appropriate settings in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

<https://docs.microsoft.com/en-us/cloud-app-security/proxy-deployment-aad>

### NEW QUESTION: 76

You deploy Microsoft Azure Information Protection.

You need to ensure that a security administrator named SecAdmin1 can always read and inspect data

protected by Azure Rights Management (Azure RMS).

What should you do?

- A. From the Security & Compliance admin center, add User1 to the eDiscovery Manager role group.
- B. From the Azure Active Directory admin center, add User1 to the Security Reader role group.
- C. From the Security & Compliance admin center, add User1 to the Compliance Administrator role group.
- D. From Windows PowerShell, enable the super user feature and assign the role to SecAdmin1.

**Answer: (SHOW ANSWER)**

### NEW QUESTION: 77

You have a Microsoft 365 E5 tenant that contains a Microsoft SharePoint Online site named Site1. Site1 contains the files shown in the following table.

You create a sensitivity label named Sensitivity1 and an auto-label policy that has the following configurations:

Name: AutoLabel1

Label to auto-apply: Sensitivity1

Rules for SharePoint Online sites: Rule1-SPO

Choose locations where you want to apply the label: Site1

Rule1-SPO is configured as shown in the following exhibit.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Reference:

<https://docs.microsoft.com/en-us/microsoft-365/compliance/apply-sensitivity-label-automatically?view=o365-worldwide>

<https://docs.microsoft.com/en-us/microsoft-365/compliance/sensitivity-labels?view=o365-worldwide>

### NEW QUESTION: 78

You have a Microsoft 365 E5 subscription that contains the devices shown in the following table.

You need to configure an incident email notification rule that will be triggered when an alert occurs only on a Windows 10 device. The solution must minimize administrative effort.

What should you do first?

- A. From the Microsoft 365 admin center, create a mail-enabled security group.
- B. From the Microsoft 365 Defender portal, create a device group.
- C. From the Microsoft Endpoint Manager admin center, create a device category.
- D. From the Azure Active Directory admin center, create a dynamic device group.

**Answer: B (LEAVE A REPLY)**

Reference:

<https://docs.microsoft.com/en-us/microsoft-365/security/defender-endpoint/machine-groups?view=o365-worldwide>

<https://docs.microsoft.com/en-us/microsoft-365/security/defender-endpoint/configure-email-notifications?view=o365-worldwide>

### NEW QUESTION: 79

You have a Microsoft 365 E5 subscription.

You need to be notified if users receive email containing a file that has a virus.

What should you do?

- A. From the Exchange admin center, create an in-place eDiscovery & hold.
- B. From the Exchange admin center, create a spam filter policy.
- C. From the Exchange admin center, create an anti-malware policy.
- D. From the Exchange admin center, create a mail flow rule.

**Answer: C (LEAVE A REPLY)**

Section: [none]

Explanation/Reference:

<https://docs.microsoft.com/en-us/office365/servicedescriptions/exchange-online-service-description/anti-spam-and-anti-malware-protection>

### NEW QUESTION: 80

#### HOTSPOT

You have three devices enrolled in Microsoft Intune as shown in the following table.

The device compliance policies in Intune are configured as shown in the following table.

The device compliance policies have the assignments shown in the following table.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

**Answer:**

Section: [none]

### NEW QUESTION: 81

You create two device compliance policies for Android devices as shown in the following table.

The users belong to the groups shown in the following table.

The users enroll their device in Microsoft Intune.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

References:

<https://docs.microsoft.com/en-us/intune-user-help/enroll-your-device-in-intune-android>

### NEW QUESTION: 82

You need to ensure that User1 can enroll the devices to meet the technical requirements. What should you do?

- A.** From the Azure Active Directory admin center, assign User1 the Cloud device administrator role.
- B.** From the Azure Active Directory admin center, configure the Maximum number of devices per user setting.
- C.** From the Intune admin center, add User1 as a device enrollment manager.
- D.** From the Intune admin center, configure the Enrollment restrictions.

**Answer: C** ([LEAVE A REPLY](#))

Overview

Contoso, Ltd. is a consulting company that has a main office in Montreal and two branch offices in Seattle and New York.

The company has the employees and devices shown in the following table.

Contoso recently purchased a Microsoft 365 ES subscription.

#### Existing Environment

##### Requirement

The network contains an on-premises Active Directory forest named contoso.com. The forest contains the servers shown in the following table.

All servers run Windows Server 2016. All desktops and laptops are Windows 10 Enterprise and are joined to the domain.

The mobile devices of the users in the Montreal and Seattle offices run Android. The mobile devices of the users in the New York office run iOS.

The domain is synced to Azure Active Directory (Azure AD) and includes the users shown in the following table.

The domain also includes a group named Group1.

##### Planned Changes

Contoso plans to implement the following changes:

- \*Implement Microsoft 365.

- \*Manage devices by using Microsoft Intune.

- \*Implement Azure Advanced Threat Protection (ATP).

- \*Every September, apply the latest feature updates to all Windows computers. Every March, apply the latest feature updates to the computers in the New York office only.

##### Technical Requirements

Contoso identifies the following technical requirements:

- \*When a Windows 10 device is joined to Azure AD, the device must enroll in Intune automatically.

- \*Dedicated support technicians must enroll all the Montreal office mobile devices in Intune.

- \*User1 must be able to enroll all the New York office mobile devices in Intune.

- \*Azure ATP sensors must be installed and must NOT use port mirroring.

- \*Whenever possible, the principle of least privilege must be used.

- \*A Microsoft Store for Business must be created.

##### Compliance Requirements

Contoso identifies the following compliance requirements:

- \*Ensure that the users in Group1 can only access Microsoft Exchange Online from devices that are enrolled in Intune and configured in accordance with the corporate policy.

- \*Configure Windows Information Protection (WIP) for the Windows 10 devices.

## **NEW QUESTION: 83**

You purchase a new Microsoft 365 subscription.

You create 100 users who are assigned Microsoft 365 E3 licenses.

From the Security & Compliance admin center, you enable auditing.

Six months later, a manager sends you an email message asking the following questions:

- \* Question1: Who created a team named Team1 14 days ago?
- \* Question2: Who signed in to the mailbox of User1 30 days ago?
- \* Question3: Who changed the site collection administrators of a site 60 days ago?

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

References:

<https://docs.microsoft.com/en-us/office365/securitycompliance/search-the-audit-log-in-security-and-compliance?>

<https://docs.microsoft.com/en-us/office365/securitycompliance/enable-mailbox-auditing>

### **NEW QUESTION: 84**

Your company uses Windows Defender Advanced Threat Protection (ATP). Windows Defender ATP includes the machine groups shown in the following table.

You onboard a computer named computer1 to Windows Defender ATP as shown in the following exhibit.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

**Answer:**

### **NEW QUESTION: 85**

From the Microsoft Azure Active Directory (Azure AD) Identity Protection dashboard, you view the risk events shown in the following exhibit.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

References:

<https://docs.microsoft.com/en-us/azure/active-directory/authentication/howto-mfa-getstarted>

<https://docs.microsoft.com/en-us/azure/active-directory/identity-protection/howto-sign-in-risk-policy>

<https://docs.microsoft.com/en-us/azure/active-directory/reports-monitoring/quickstart-configure-named-locations>

### **NEW QUESTION: 86**

You need to meet the Intune requirements for the Windows 10 devices.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

References:

<https://docs.microsoft.com/en-us/intune/windows-enroll>

### NEW QUESTION: 87

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals- Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 subscription.

You discover that some external users accessed content on a Microsoft SharePoint site. You modify the SharePoint sharing policy to prevent sharing outside your organization.

You need to be notified if the SharePoint sharing policy is modified in the future.

Solution: From the SharePoint site, you create an alert.

Does this meet the goal?

A. Yes

B. No

**Answer: B** ([LEAVE A REPLY](#))

### NEW QUESTION: 88

Your company has a Microsoft 365 subscription that uses an Azure Active Directory (Azure AD) tenant named contoso.com. The company stores 2 TBs of data in SharePoint Online document libraries.

The tenant has the labels shown in the following table.

From the Azure portal, you activate unified labeling.

For each of the following statements, select yes if the statement is true Otherwise , select No.

NOTE: Each correct selection is worth one point.

**Answer:**

### NEW QUESTION: 89

You implement Microsoft Azure Advanced Threat Protection (Azure ATP).

You have an Azure ATP sensor configured as shown in the following exhibit.

How long after the Azure ATP cloud service is updated will the sensor update?

A. 20 hours

B. 7 hours

C. 48 hours

D. 12 hours

**Answer: (**[SHOW ANSWER](#)**)**

## NEW QUESTION: 90

You have a Microsoft 365 E5 subscription.

You run an eDiscovery search that returns the following Azure Rights Management (Azure RMS)

- encrypted content:

- \* Microsoft Exchange emails
- \* Microsoft OneDrive documents
- \* Microsoft SharePoint documents

Which content can be decrypted when you export the eDiscovery search results?

- A. Exchange emails only
- B. SharePoint documents, OneDrive documents, and Exchange emails
- C. OneDrive documents only
- D. SharePoint documents and OneDrive documents only
- E. SharePoint documents only

**Answer: (SHOW ANSWER)**

Reference:

<https://docs.microsoft.com/en-us/microsoft-365/compliance/export-search-results?view=o365-worldwide>

Topic 1, Contoso, Ltd

Topic 3, Litware Inc.

### Case Study

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the button to return to the question.

## Overview

### General Overviews

Litware, Inc. is a technology research company. The company has a main office in Montreal and a branch office in Seattle.

### Environment

#### Existing Environment

The network contains an on-premises Active Directory domain named litware.com. The domain contains the users shown in the following table.

#### Microsoft Cloud Environment

Litware has a Microsoft 365 subscription that contains a verified domain named litware.com. The subscription syncs to the on-premises domain.

Litware uses Microsoft Intune for device management and has the enrolled devices shown in the following table.

Litware.com contains the security groups shown in the following table.

Litware uses Microsoft SharePoint Online and Microsoft Teams for collaboration.

The verified domain is linked to an Azure Active Directory (Azure AD) tenant named litware.com.

Audit log search is turned on for the litware.com tenant.

### Problem Statements

Litware identifies the following issues:

- \* Users open email attachments that contain malicious content.
- \* Devices without an assigned compliance policy show a status of Compliant.
- \* User1 reports that the Sensitivity option in Microsoft Office for the web fails to appear.
- \* Internal product codes and confidential supplier ID numbers are often shared during Microsoft Teams meetings and chat sessions that include guest users and external users.

### Requirements

#### Planned Changes

Litware plans to implement the following changes:

- \* Implement device configuration profiles that will configure the endpoint protection template settings for supported devices.
- \* Configure information governance for Microsoft OneDrive, SharePoint Online, and Microsoft Teams.
- \* Implement data loss prevention (DLP) policies to protect confidential information.
- \* Grant User2 permissions to review the audit logs of the litware.com tenant.
- \* Deploy new devices to the Seattle office as shown in the following table.
- \* Implement a notification system for when DLP policies are triggered.

\* Configure a Safe Attachments policy for the litware.com tenant.

#### Technical Requirements

Litware identifies the following technical requirements:

\* Retention settings must be applied automatically to all the data stored in SharePoint Online sites, OneDrive accounts, and Microsoft Teams channel messages, and the data must be retained for five years.

\* Emails messages that contain attachments must be delivered immediately, and placeholder must be provided for the attachments until scanning is complete.

\* All the Windows 10 devices in the Seattle office must be enrolled in Intune automatically when the devices are joined to or registered with Azure AD.

\* Devices without an assigned compliance policy must show a status of Not Compliant in the Microsoft Endpoint Manager admin center.

A notification must appear in the Microsoft 365 compliance center when a DLP policy is triggered.

User2 must be granted the permissions to review audit logs for the following activities:

- Admin activities in Microsoft Exchange Online
- Admin activities in SharePoint Online
- Admin activities in Azure AD

Users must be able to apply sensitivity labels to documents by using Office for the web.

Windows Autopilot must be used for device provisioning, whenever possible.

A DLP policy must be created to meet the following requirements:

- Confidential information must not be shared in Microsoft Teams chat sessions, meetings, or channel messages.
- Messages that contain internal product codes or supplier ID numbers must be blocked and deleted.

The principle of least privilege must be used.

#### **NEW QUESTION: 94**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution. After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your network contains an on-premises Active Directory domain. The domain contains 2,000 computers that run Windows 8.1 and have applications installed as shown in the following table. You enroll all the computers in Upgrade Readiness.

You need to ensure that App1 and App2 have an UpgradeDecision status of Ready to upgrade.

Solution: You set the ReadyForWindows status of App2 to Highly adopted.

Does this meet the goal?

A. Yes

B. No

**Answer: A** ([LEAVE A REPLY](#))

App1 has a "low install count" (2% or less) so will be Ready to upgrade. We just need to change the setting for App2.

Reference:

<https://docs.microsoft.com/en-us/windows/deployment/upgrade/upgrade-readiness-identify-apps>

### NEW QUESTION: 95

You have a Microsoft 365 subscription that contains the users shown in the following table.

You configure an Enrollment Status Page profile as shown in the following exhibit.

You assign the policy to Group1.

You purchase the devices shown in the following table.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Reference:

<https://docs.microsoft.com/en-us/mem/intune/enrollment/windows-enrollment-status>

### NEW QUESTION: 96

You create a Microsoft 365 subscription.

You need to create a deployment plan for Microsoft Azure Advanced Threat Protection (ATP).

Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

Explanation:

<https://blog.ahasayen.com/azure-advanced-threat-protection-deployment/>

### NEW QUESTION: 97

You purchase a new computer that has Windows 10, version 21H1 preinstalled.

You need to ensure that the computer is up-to-date. The solution must minimize the number of updates installed.

What should you do on the computer?

**A.** Install all the feature updates released since version 21H1 and all the quality updates released since version 21H1 only.

**B.** Install the latest feature update and all the quality updates released since version 21H1.

**C.** Install the latest feature update and the latest quality update only.

**D.** Install all the feature updates released since version 21H1 and the latest quality update only.

**Answer:** ([SHOW ANSWER](#))

### NEW QUESTION: 98

As of March, how long will the computers in each office remain supported by Microsoft? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

References:

<https://www.windowscentral.com/whats-difference-between-quality-updates-and-feature-updates-windows-10>

### NEW QUESTION: 99

You have a Microsoft 365 subscription that contains a Microsoft SharePoint Online site named Site1. Site1 has the files in the following table.

The Site1 users are assigned the roles shown in the following table.

You create a data loss prevention (DLP) policy named Policy1 as shown in the following exhibit.

How many files will be visible to user1 and User2 after Policy1 is applied to answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

### NEW QUESTION: 100

You have a Microsoft 365 tenant that has Enable Security defaults set to No in Azure Active Directory (Azure AD).

The tenant has two Compliance Manager assessments as shown in the following table.

The SP800 assessment has the improvement actions shown in the following table.

You perform the following actions:

For the Data Protection Baseline assessment, change the Test status of Establish a threat intelligence program to Implemented.

Enable multi-factor authentication (MFA) for all users.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Reference:

<https://docs.microsoft.com/en-us/microsoft-365/compliance/compliance-manager-assessments?view=o365-worldwide#create-assessments>

<https://docs.microsoft.com/en-us/microsoft-365/compliance/compliance-score-calculation?view=o365-worldwide#action-types-and-points>

### NEW QUESTION: 101

You have several devices enrolled in Microsoft Intune.

You have a Microsoft Azure Active Directory (Azure AD) tenant that includes the users shown in the following table.

The device type restrictions in Intune are configured as shown in the following table.

You add User3 as a device enrollment manager in Intune.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.  
NOTE: Each correct selection is worth one point.

**Answer:**

**NEW QUESTION: 102**

You have a Microsoft 365 subscription.

You are configuring permissions for Security & Compliance.

You need to ensure that the users can perform the tasks shown in the following table.

The solution must use the principle of least privilege.

To which role should you assign each user? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

References:

<https://docs.microsoft.com/en-us/office365/securitycompliance/permissions-in-the-security-and-compliance-cent>

**NEW QUESTION: 103**

Your company uses Microsoft Defender Advanced Threat Protection (Microsoft Defender ATP).

The devices onboarded to Microsoft Defender ATP are shown in the following table.

The alerts visible in the Microsoft Defender ATP alerts queue are shown in the following table.

You create a suppression rule that has the following settings:

Triggering IOC: Any IOC

Action: Hide alert

Suppression scope: Alerts on ATP1 machine group

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

A suppression rule will not affect alerts that are already in the alerts queue. Only new alerts will be suppressed.

**NEW QUESTION: 104**

You need to meet the technical requirement for large-volume document retrieval. What should you create?

- A. a data loss prevention (DLP) policy from the Security & Compliance admin center
- B. an alert policy from the Security & Compliance admin center
- C. a file policy from Microsoft Cloud App Security
- D. an activity policy from Microsoft Cloud App Security

**Answer: D ([LEAVE A REPLY](#))**

Reference:

<https://docs.microsoft.com/en-us/office365/securitycompliance/activity-policies-and-alerts>

#### **NEW QUESTION: 105**

Your company has a Microsoft 365 subscription that uses an Azure Active Directory (Azure AD) tenant named contoso.com. The company stores 2 TBs of data in SharePoint Online document libraries.

The tenant has the labels shown in the following table.

From the Azure portal, you activate unified labeling.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

#### **NEW QUESTION: 106**

You need to meet the technical requirement for the SharePoint administrator. What should you do? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

**Answer:**

You have three devices enrolled in Microsoft Intune as shown in the following table.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

**NEW QUESTION: 108**

You have a Microsoft 365 E5 tenant that contains the users shown in the following table.

You perform the following actions:

Provision the private store in Microsoft Store for Business.

Add an app named App1 to the private store.

Set Private store availability for App1 to Specific groups, and then select Group3.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Reference:

<https://docs.microsoft.com/en-us/microsoft-store/app-inventory-management-microsoft-store-for-business#private-store-availability>

**NEW QUESTION: 109**

You have a Microsoft 365 E5 subscription that uses Microsoft Defender Advanced Threat Protection (Microsoft Defender ATP).

From Microsoft Defender ATP, you turn on the Allow or block file advanced feature.

You need to block users from downloading a file named File1.exe.

What should you use?

A. a suppression rule

B. an indicator

C. a device configuration profile

**Answer: B (LEAVE A REPLY)**

Section: [none]

Explanation/Reference:

<https://docs.microsoft.com/en-us/windows/security/threat-protection/microsoft-defender-atp/respond-file-alerts#allow-or-block-file>

**NEW QUESTION: 110**

You have a Microsoft Azure Active Directory (Azure AD) tenant named

sk180818.onmicrosoft.com. The tenant contains the users shown in the following table.

In Azure Information Protection, you create a label named Label1 as shown in the following exhibit.

Label1 is applied to a file named File1.

You send File1 as an email attachment to User1, User2, User3, and User4.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Reference:

<https://docs.microsoft.com/en-us/azure/information-protection/configure-usage-rights#rights-included-in-permissions-levels>

### NEW QUESTION: 111

You have a Microsoft 365 E5 tenant that contains the resources shown in the following table. To which resources can you apply a sensitivity label by using an auto-labeling policy?

- A. Mailbox1 and Site1 only
- B. Mailbox1, Account1, and Site1 only
- C. Account1 and Site1 only
- D. Mailbox1, Account1, Site1, and Channel1
- E. Account1, Site1, and Channel1 only

**Answer: E** ([LEAVE A REPLY](#))

Section: [none]

Explanation/Reference:

<https://docs.microsoft.com/en-us/microsoft-365/compliance/sensitivity-labels?view=o365-worldwide>

### NEW QUESTION: 112

You have a Microsoft 365 subscription.

You need to be notified if users receive email containing a file that has a virus.

What should you do?

- A. From the Exchange admin center, create a spam filter policy.
- B. From the Security & Compliance admin center, create a data governance event.
- C. From the Security & Compliance admin center, create an alert policy.
- D. From the Exchange admin center, create a mail-flow rule.

**Answer: D** ([LEAVE A REPLY](#))

You can inspect email attachments in your Exchange Online organization by setting up mail flow rules. Exchange Online offers mail flow rules that provide the ability to examine email attachments as a part of your messaging security and compliance needs. When you inspect attachments, you can then take action on the messages that were inspected based on the content or characteristics of those attachments.

Incorrect answers:

A: A spam filter policy includes selecting the action to take on messages that are identified as spam. Spam filter policy settings are applied to inbound messages.

B: A data governance event commences when an administrator creates it, following which background processes look for content relating to the event and take the retention action defined in the label. The retention action can be to keep or remove items, or to mark them for manual disposition.

**NEW QUESTION: 117**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution. After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft Azure Active Directory (Azure AD) tenant named contoso.com.

You create an Azure Advanced Threat Protection (ATP) workspace named Workspace1.

The tenant contains the users shown in the following table.

You need to modify the configuration of the Azure ATP sensors.

Solution: You instruct User4 to modify the Azure ATP sensor configuration.

Does this meet the goal?

- A. Yes
- B. No

**Answer: (**[SHOW ANSWER](#)**)**

Only Azure ATP administrators can modify the sensors.

Any global administrator or security administrator on the tenant's Azure Active Directory is automatically an Azure ATP administrator.

<https://docs.microsoft.com/en-us/azure-advanced-threat-protection/atp-role-groups>

**NEW QUESTION: 118**

Your company has a Microsoft 365 subscription that contains the domains shown in the following table.

The company plans to add a custom domain named fabrikam.com to the subscription and then to enable enrollment of devices to Intune by using auto discovery for fabrikam.com.

You need to add a DNS record to the fabrikam.com zone.

Which record type should you use for the new record?

- A. PTR
- B. SRV
- C. CNAME
- D. TXT

**Answer: D** ([LEAVE A REPLY](#))

#### NEW QUESTION: 119

Your network contains an Active Directory domain named contoso.com. All client devices run Windows 10 and are joined to the domain.

You update the Windows 10 devices by using Windows Update for Business.

What is the maximum amount of time you can defer Windows 10 updates? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Reference:

<https://docs.microsoft.com/en-us/windows/deployment/update/waas-manage-updates-wufb>

#### NEW QUESTION: 120

Your company has a Microsoft 365 subscription that uses an Azure Active Directory (Azure AD) tenant named contoso.com. The company stores 2 TBs of data in SharePoint Online document libraries.

The tenant has the labels shown in the following table.

From the Azure portal, you activate unified labeling.

For each of the following statements, select yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

#### NEW QUESTION: 121

You have a Microsoft 365 E5 tenant that contains the users shown in the following table.

Users are assigned Microsoft Store for Business roles as shown in the following table.

Which users can add apps to the private store in Microsoft Store for Business, and which users can install apps from the private store? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

<https://docs.microsoft.com/en-us/mem/intune/enrollment/windows-enroll>

### NEW QUESTION: 123

You use Microsoft Defender for Endpoint.

You have the Microsoft Defender for Endpoint device groups shown in the following table

You plan to onboard computers to Microsoft Defender for Endpoint as shown in the following table.

**Answer:**

### NEW QUESTION: 124

Your company has a Microsoft 365 subscription.

You need to configure Microsoft 365 to meet the following requirements:

\* Malware found in email attachments must be quarantined for 20 days.

\* The email address of senders to your company must be verified.

Which two options should you configure in the Security & Compliance admin center? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

**NEW QUESTION: 125**

You have several devices enrolled in Microsoft Intune.

You have a Microsoft Azure Active Directory (Azure AD) tenant that includes the users shown in the following table.

The device type restrictions in Intune are configured as shown in the following table.

You add User3 as a device enrollment manager in Intune.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

**NEW QUESTION: 126**

You create two device compliance policies for Android devices as shown in the following table.

The users belong to the groups shown in the following table.

The users enroll their device in Microsoft Intune.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

**NEW QUESTION: 128**

You have a Microsoft 365 subscription.

All users are assigned Microsoft Azure Active Directory Premium licenses.

From the Device Management admin center, you set Microsoft Intune as the MDM authority.

You need to ensure that when the members of a group named Marketing join a device to Azure Active Directory (Azure AD), the device is enrolled automatically in Intune. The Marketing group members must be limited to five devices enrolled in Intune.

Which two options should you use to perform the configurations? To answer, select the appropriate blades in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Reference:

<https://docs.microsoft.com/en-us/intune/enrollment/device-enrollment-manager-enroll>

<https://docs.microsoft.com/en-us/intune/enrollment/enrollment-restrictions-set>

**NEW QUESTION: 129**

From the Microsoft Azure Active Directory (Azure AD) Identity Protection dashboard, you view the risk events shown in the exhibit. (Click the Exhibit tab.)

You need to reduce the likelihood that the sign-ins are identified at risky.

What should you do?

- A. From the Security & Compliance admin center, create a classification label.
- B. From the Security & Compliance admin center, add the users to the Security Readers role group.
- C. From the Azure Active Directory admin center, configure the trusted IPs for multi-factor authentication.
- D. From the Conditional access blade in the Azure Active Directory admin center, create named locations.

**Answer: (SHOW ANSWER)**

Reference:

<https://docs.microsoft.com/en-us/azure/active-directory/conditional-access/location-condition>

**NEW QUESTION: 130**

You have a Microsoft 365 subscription.

You plan to enable Microsoft Azure Information Protection.

You need to ensure that only the members of a group named PilotUsers can protect content.

What should you do?

- A. Run the Add-AadrmRoleBasedAdministrator cmdlet.
- B. Create an Azure Information Protection policy.
- C. Configure the protection activation status for Azure Information Protection.
- D. Run the Set-AadrmOnboardingControlPolicy cmdlet.

**Answer: D** ([LEAVE A REPLY](#))

### NEW QUESTION: 131

Your company has a Microsoft 365 subscription that contains the domains shown in the following table.

The company plans to add a custom domain named fabrikam.com to the subscription and then to enable enrollment of devices to Intune by using auto-discovery for fabrikam.com.

You need to add a DNS record to the fabrikam.com domain to enable device enrollment by using auto- discovery.

Which record type should you use for the new record?

- A. PTR
- B. SRV
- C. CNAME
- D. TXT

**Answer: C** ([LEAVE A REPLY](#))

Explanation/Reference:

<https://docs.microsoft.com/en-us/mem/intune/enrollment/windows-enroll#simplify-windows-enrollment-without- azure-ad-premium>

### NEW QUESTION: 132

You have a Microsoft 365 subscription.

All users are assigned Microsoft Azure Active Directory Premium licenses.

From the Device Management admin center, you set Microsoft Intune as the MDM authority.

You need to ensure that when the members of a group named Marketing join a device to Azure Active Directory (Azure AD), the device is enrolled automatically in Intune. The Marketing group members must be limited to five devices enrolled in Intune.

Which two options should you use to perform the configurations? To answer, select the appropriate blades in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

Device enrollment manager (DEM) is an Intune permission that can be applied to an Azure AD user account and lets the user enroll up to 1,000 devices You can create and manage enrollment restrictions that define what devices can enroll into management with Intune, including the:

Number of devices.

Operating systems and versions.

The Marketing group members must be limited to five devices enrolled in Intune References:

<https://docs.microsoft.com/en-us/intune/enrollment/device-enrollment-manager-enroll>

<https://docs.microsoft.com/en-us/intune/enrollment/enrollment-restrictions-set>

### NEW QUESTION: 133

You have the Microsoft Azure Advanced Threat Protection (ATP) workspace shown in the Workspace exhibit. (Click the Workspace tab.)

The sensors settings for the workspace are configured as shown in the Sensors exhibit. (Click the Sensors tab.)

You need to ensure that Azure ATP stores data in Asia.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

### NEW QUESTION: 134

Your company has a Microsoft 365 subscription that uses an Azure Active Directory (Azure AD) tenant named contoso.com. The tenant contains computers that run Windows 10 Enterprise and are managed by using Microsoft Intune. The computers are configured as shown in the following table.

You plan to implement Windows Defender Application Guard for contoso.com.

You need to identify on which two Windows 10 computers Windows Defender Application Guard can be installed.

Which two computers should you identify? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. Computer1

B. Computer3

C. Computer2

D. Computer4

**Answer: B,C** ([LEAVE A REPLY](#))

**Answer:**

#### **NEW QUESTION: 143**

Your company has a Microsoft 365 subscription that uses an Azure Directory (Azure AD) tenant named Contoso.com. The tenant contains the users shown in the following table.

You create a retention label named Label1 that has the following configurations:

Retains content for five years.

Automatically deletes all content that is older than five years.

You turn on Auto labeling for Label1 by using a policy named Policy1. Policy1 has the following configurations:

\* Retains content for five years

\* Automatically deletes all content that is older than five years

You turn on Auto labeling for Label 1 by using a policy named Policy1. Policy has the following configurations:

\* Applies to content that contains the word Merger

\* Specifies the OneDrive accounts and SharePoint sites locations

You run the following command

Set-RetentionCompliancePolicy Policy1 RestrictiveRetention \$true Force

For each of the following statements select Yes if the statement is true Otherwise, select No

NOTE: Each correct selection is worth one point.

**Answer:**

**NEW QUESTION: 144**

You have a Microsoft 365 subscription that contains a Microsoft Azure Active Directory (Azure AD) tenant named contoso.com.

In the tenant, you create a user named User1.

You need to ensure that User1 can publish retention labels from the Security & Compliance admin center. The solution must use the principle of least privilege.

To which role group should you add User1?

- A. eDiscovery Manager
- B. Compliance Administrator
- C. Security Administrator
- D. Records Management

**Answer: D** ([LEAVE A REPLY](#))

**NEW QUESTION: 145**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your network contains an Active Directory domain named contoso.com that is synced to Microsoft Azure Active Directory (Azure AD).

You manage Windows 10 devices by using Microsoft System Center Configuration Manager (Current Branch).

You configure a pilot for co-management.

You add a new device named Device1 to the domain. You install the Configuration Manager client on Device1.

You need to ensure that you can manage Device1 by using Microsoft Intune and Configuration Manager.

Solution: You create a device configuration profile from the Device Management admin center.

Does this meet the goal?

- A. Yes
- B. No

**Answer: A** ([LEAVE A REPLY](#))

Topic 2, Case Study Overview

Existing Environment

This is a case study Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. When you are ready to answer a question, click the Question button to return to the question.

Current Infrastructure

A . Datum recently purchased a Microsoft 365 subscription.

All user files are migrated to Microsoft 365.

All mailboxes are hosted in Microsoft 365. The users in each office have email suffixes that include the country of the user, for example, user1@us.adatum.com or user2#uk.ad3tum.com. Each office has a security information and event management (SIEM) appliance. The appliances come from three different vendors.

A . Datum uses and processes Personally Identifiable Information (PII).

Problem Statements

Requirements

A . Datum entered into litigation. The legal department must place a hold on all the documents of a user named User1 that are in Microsoft 365.

Business Goals

A . Datum wants to be fully compliant with all the relevant data privacy laws in the regions where it operates.

A . Datum wants to minimize the cost of hardware and software whenever possible.

Technical Requirements

- \* Centrally perform log analysis for all offices.
- \* Aggregate all data from the SIEM appliances to a central cloud repository for later analysis.
- \* Ensure that a SharePoint administrator can identify who accessed a specific file stored in a document library.
- \* Provide the users in the finance department with access to Service assurance information in Microsoft Office 365.
- \* Ensure that documents and email messages containing the PII data of European Union (EU) citizens are preserved for 10 years.
- \* If a user attempts to download 1,000 or more files from Microsoft SharePoint Online within 30 minutes, notify a security administrator and suspend the user's user account.

\* A security administrator requires a report that shows which Microsoft 365 users signed in. Based on the report, the security administrator will create a policy to require multi-factor authentication when a sign in is high risk.

\* Ensure that the users in the New York office can only send email messages that contain sensitive U.S. PII data to other New York office users. Email messages must be monitored to ensure compliance. Auditors in the New York office must have access to reports that show the sent and received email messages containing sensitive U.S. PII data.

#### **NEW QUESTION: 146**

You have a Microsoft 365 E5 tenant.

You need to ensure that administrators are notified when a user receives an email message that contains malware. The solution must use the principle of least privilege.

Which type of policy should you create and which Microsoft 365 compliance center role is required to create the policy? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

#### **NEW QUESTION: 147**

You have three devices enrolled in Microsoft Endpoint Manager as shown in the following table. The device compliance policies in Endpoint Manager are configured as shown in the following table.

The device compliance policies have the assignments shown in the following table.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

#### **NEW QUESTION: 148**

From the Security & Compliance admin center, you create a retention policy named Policy1.

You need to prevent all users from disabling the policy or reducing the retention period.

Which command should you run? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

References:

<https://docs.microsoft.com/en-us/powershell/module/exchange/policy-and-compliance-retention/set-retentioncom>

#### **NEW QUESTION: 149**

You have a Microsoft 365 subscription that contains all the user data.

You plan to create the retention policy shown in the Locations exhibit. (Click the Locations tab.)  
You configure the Advanced retention settings as shown in the Retention exhibit. (Click the Retention tab.)

The locations specified in the policy include the groups shown in the following table.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

References:

### **NEW QUESTION: 150**

You have a Microsoft 365 subscription.

You need to identify which administrative users performed eDiscovery searches during the past week.

What should you do from the Security & Compliance admin center?

- A.** Create a supervision policy
- B.** Perform a content search
- C.** Create an eDiscovery case
- D.** Perform an audit log search

**Answer: (SHOW ANSWER)**

Topic 3, Litware Inc.

To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

Overview

General Overviews

Litware, Inc. is a technology research company. The company has a main office in Montreal and a branch office in Seattle.

Environment

Existing Environment

The network contains an on-premises Active Directory domain named litware.com. The domain contains the users shown in the following table.

Microsoft Cloud Environment

Litware has a Microsoft 365 subscription that contains a verified domain named litware.com. The subscription syncs to the on-premises domain.

Litware uses Microsoft Intune for device management and has the enrolled devices shown in the following table.

Litware.com contains the security groups shown in the following table.

Litware uses Microsoft SharePoint Online and Microsoft Teams for collaboration.

The verified domain is linked to an Azure Active Directory (Azure AD) tenant named litware.com.

Audit log search is turned on for the litware.com tenant.

#### Problem Statements

Litware identifies the following issues:

Users open email attachments that contain malicious content.

Devices without an assigned compliance policy show a status of Compliant.

User1 reports that the Sensitivity option in Microsoft Office for the web fails to appear.

Internal product codes and confidential supplier ID numbers are often shared during Microsoft Teams meetings and chat sessions that include guest users and external users.

#### Requirements

##### Planned Changes

Litware plans to implement the following changes:

Implement device configuration profiles that will configure the endpoint protection template settings for supported devices.

Configure information governance for Microsoft OneDrive, SharePoint Online, and Microsoft Teams.

Implement data loss prevention (DLP) policies to protect confidential information.

Grant User2 permissions to review the audit logs of the litware.com tenant.

Deploy new devices to the Seattle office as shown in the following table.

Implement a notification system for when DLP policies are triggered.

Configure a Safe Attachments policy for the litware.com tenant.

##### Technical Requirements

Litware identifies the following technical requirements:

Retention settings must be applied automatically to all the data stored in SharePoint Online sites, OneDrive accounts, and Microsoft Teams channel messages, and the data must be retained for five years.

Emails messages that contain attachments must be delivered immediately, and placeholder must be provided for the attachments until scanning is complete.

All the Windows 10 devices in the Seattle office must be enrolled in Intune automatically when the devices are joined to or registered with Azure AD.

Devices without an assigned compliance policy must show a status of Not Compliant in the Microsoft Endpoint Manager admin center.

A notification must appear in the Microsoft 365 compliance center when a DLP policy is triggered.

User2 must be granted the permissions to review audit logs for the following activities:

- Admin activities in Microsoft Exchange Online
- Admin activities in SharePoint Online
- Admin activities in Azure AD

Users must be able to apply sensitivity labels to documents by using Office for the web.

Windows Autopilot must be used for device provisioning, whenever possible.

A DLP policy must be created to meet the following requirements:

- Confidential information must not be shared in Microsoft Teams chat sessions, meetings, or channel messages.
- Messages that contain internal product codes or supplier ID numbers must be blocked and deleted.

The principle of least privilege must be used.

### NEW QUESTION: 151

Your company has a Microsoft 365 subscription that uses an Azure Active Directory (Azure AD) tenant named contoso.com. The company stores 2 TBs of data in SharePoint Online document libraries.

The tenant has the labels shown in the following table.

From the Azure portal, you activate unified labeling.

For each of the following statements, select yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

### NEW QUESTION: 152

Your network contains an Active Directory domain named contoso.com that uses Microsoft System Center Configuration Manager (Current Branch).

You have Windows 10 and Windows 8.1 devices.

You need to ensure that you can analyze the upgrade readiness of all the Windows 8.1 devices and analyze the update compliance of all the Windows 10 devices.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

#### Answer:

Explanation

References:

<https://docs.microsoft.com/en-us/windows/deployment/upgrade/upgrade-readiness-get-started>

<https://docs.microsoft.com/en-us/windows/deployment/update/update-compliance-get-started>

**NEW QUESTION: 153**

You have a Microsoft 365 E5 tenant that contains the devices shown in the following table.

The devices are managed by using Microsoft Intune.

You plan to use a configuration profile to assign the Delivery Optimization settings.

Which devices will support the settings?

- A. Device1 only
- B. Device1 and Device4
- C. Device1, Device2, Device3, and Device4
- D. Device1, Device3, and Device4

**Answer:** ([SHOW ANSWER](#))

**NEW QUESTION: 154**

You have a Microsoft Azure Active Directory (Azure AD) tenant named contoso.com.

You need to provide a user with the ability to sign up for Microsoft Store for Business for contoso.com. The solution must use the principle of least privilege.

Which role should you assign to the user?

- A. Cloud application administrator
- B. Application administrator
- C. Global administrator
- D. Service administrator

**Answer:** ([SHOW ANSWER](#))

References:

<https://docs.microsoft.com/en-us/microsoft-store/roles-and-permissions-microsoft-store-for-business>

**NEW QUESTION: 155**

You need to ensure that User2 can review the audit logs. The solutions must meet the technical requirements.

To which role group should you add User2, and what should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

Graphical user interface, text Description automatically generated

Reference:

<https://docs.microsoft.com/en-us/microsoft-365/compliance/search-the-audit-log-in-security-and-compliance?vie>

**NEW QUESTION: 156**

You have three devices enrolled in Microsoft Endpoint Manager as shown in the following table. The device compliance policies in Endpoint Manager are configured as shown in the following table.

The device compliance policies have the assignments shown in the following table.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

### **NEW QUESTION: 157**

You have a Microsoft 365 E5 subscription that uses Microsoft Intune.

You have devices enrolled in Intune as shown in the following table.

You create the device configuration profiles shown in the following table.

Which profiles will be applied to each device? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

### **NEW QUESTION: 158**

HOTSPOT

You have a Microsoft Azure Activity Directory (Azure AD) tenant contains the users shown in the following table.

Group3 is a member of Group1.

Your company uses Microsoft Defender Advanced Threat Protection (ATP). Microsoft Defender ATP contains the roles shown in the following table.

Microsoft Defender ATP contains the device groups shown in the following table.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

**Answer:**

Section: [none]

Explanation/Reference:

### **NEW QUESTION: 159**

HOTSPOT

You have a Microsoft 365 E5 tenant that contains five devices enrolled in Microsoft Intune as shown in the following table.

All the devices have an app named App1 installed.

You need to prevent users from copying data from App1 and pasting the data into other apps.

Which policy should you create in Microsoft Endpoint Manager, and what is the minimum number of required policies? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

**Answer:**

Section: [none]

Explanation/Reference:

<https://docs.microsoft.com/en-us/mem/intune/apps/app-protection-policy>

### **NEW QUESTION: 160**

You have a Microsoft 365 E5 tenant that contains 500 Android devices enrolled in Microsoft Intune.

You need to use Microsoft Endpoint Manager to deploy a managed Google Play app to the devices.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

Explanation

Graphical user interface, text, application Description automatically generated

Reference:

<https://docs.microsoft.com/en-us/mem/intune/apps/apps-add-android-for-work#assign-a-managed-google-play-a>

### **NEW QUESTION: 161**

You need to configure a conditional access policy to meet the compliance requirements.

You add Exchange Online as a cloud app.

Which two additional settings should you configure in Policy1? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

Topic 1, Contoso, Ltd

Overview

Contoso, Ltd. is a consulting company that has a main office in Montreal and two branch offices in Seattle and New York.

The company has the employees and devices shown in the following table.

Contoso recently purchased a Microsoft 365 ES subscription.

Existing Environment

## Requirement

The network contains an on-premises Active Directory forest named contoso.com. The forest contains the servers shown in the following table.

All servers run Windows Server 2016. All desktops and laptops are Windows 10 Enterprise and are joined to the domain.

The mobile devices of the users in the Montreal and Seattle offices run Android. The mobile devices of the users in the New York office run iOS.

The domain is synced to Azure Active Directory (Azure AD) and includes the users shown in the following table.

The domain also includes a group named Group1.

## Planned Changes

Contoso plans to implement the following changes:

- \*Implement Microsoft 365.
- \*Manage devices by using Microsoft Intune.
- \*Implement Azure Advanced Threat Protection (ATP).
- \*Every September, apply the latest feature updates to all Windows computers. Every March, apply the latest feature updates to the computers in the New York office only.

## Technical Requirements

Contoso identifies the following technical requirements:

- \*When a Windows 10 device is joined to Azure AD, the device must enroll in Intune automatically.
- \*Dedicated support technicians must enroll all the Montreal office mobile devices in Intune.
- \*User1 must be able to enroll all the New York office mobile devices in Intune.
- \*Azure ATP sensors must be installed and must NOT use port mirroring.
- \*Whenever possible, the principle of least privilege must be used.
- \*A Microsoft Store for Business must be created.

## Compliance Requirements

Contoso identifies the following compliance requirements:

- \*Ensure that the users in Group1 can only access Microsoft Exchange Online from devices that are enrolled in Intune and configured in accordance with the corporate policy.
- \*Configure Windows Information Protection (WIP) for the Windows 10 devices.

## NEW QUESTION: 162

From the Security & Compliance admin center, you create a content export as shown in the exhibit. (Click the Exhibit tab.)

What will be excluded from the export?

- A. a 60-MB DOCX file
- B. a 12-MB BMP file
- C. a 5-KB RTF file
- D. an 80-MB PPTX file

**Answer: ([SHOW ANSWER](#))**

Unrecognized file formats are excluded from the search.

Certain types of files, such as Bitmap or MP3 files, don't contain content that can be indexed. As a result, the search indexing servers in Exchange and SharePoint don't perform full-text indexing on these types of files.

These types of files are considered to be unsupported file types.

Incorrect Answers:

A: DOCX is a supported Microsoft PowerPoint file format.

C: RTF is a supported Rich Text File format.

D: PPTX is a supported Microsoft PowerPoint file format.

References:

[https://docs.microsoft.com/en-us/microsoft-365/compliance/partially-indexed-items-in-content-search?](https://docs.microsoft.com/en-us/microsoft-365/compliance/partially-indexed-items-in-content-search?view=o365-worldwide)

### **NEW QUESTION: 163**

You have a new Microsoft 365 subscription.

A user named User1 has a mailbox in Microsoft Exchange Online.

You need to log any changes to the mailbox folder permissions of User1.

Which command should you run? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

To enable auditing for a single mailbox (in this example, belonging to Holly Sharp), use this PowerShell command: `Set-Mailbox username -AuditEnabled $true` References:

[view=exchange-ps](https://docs.microsoft.com/en-us/powershell/module/exchange/mailboxes/set-mailbox?view=exchange-ps)

### **NEW QUESTION: 164**

Your network contains an Active Directory domain named contoso.com that uses Microsoft System Center Configuration Manager (Current Branch).

You have Windows 10 and Windows 8.1 devices.

You need to ensure that you can analyze the upgrade readiness of all the Windows 8.1 devices and analyze the update compliance of all the Windows 10 devices.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

References:

<https://docs.microsoft.com/en-us/windows/deployment/upgrade/upgrade-readiness-get-started>

<https://docs.microsoft.com/en-us/windows/deployment/update/update-compliance-get-started>

**NEW QUESTION: 165**

You have a Microsoft 365 subscription.

You have a group named Support. Users in the Support group frequently send email messages to external users.

The manager of the Support group wants to randomly review messages that contain attachments. You need to provide the manager with the ability to review messages that contain attachments sent from the Support group users to external users. The manager must have access to only 10 percent of the messages.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

References:

<https://docs.microsoft.com/en-us/office365/securitycompliance/supervision-policies>

**NEW QUESTION: 166**

You have an Azure Active Directory (Azure AD) tenant that contains two users named User1 and User2.

On September 5, 2019, you create and enforce a terms of use (ToU) in the tenant. The ToU has the following settings:

- \* Name: Terms1
- \* Display name: Terms1 name
- \* Require users to expand the terms of use: Off
- \* Require users to consent on every device: Off
- \* Expire consents: On
- \* Expire starting on: October 10, 2019
- \* Frequency: Monthly

User1 accepts Terms1 on September 5, 2019. User2 accepts Terms1 on October 5, 2019.

When will Terms1 expire for the first time for each user? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

Reference:

<https://docs.microsoft.com/en-us/azure/active-directory/conditional-access/terms-of-use>

#### NEW QUESTION: 168

A user named User1 has files in Microsoft OneDrive as shown in the following table.

On February 1, 2019, you apply a retention policy named Policy1 as shown in the following exhibit.

On February 5, 2019, User1 edits File2.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

#### NEW QUESTION: 169

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 E5 subscription that contains a user named User1.

You need to enable User1 to create Compliance Manager assessments.

Solution: From the Microsoft 365 admin center, you assign User1 the Compliance admin role.

Does this meet the goal?

**A. Yes**

**B. No**

**Answer: B** ([LEAVE A REPLY](#))

Reference:

<https://github.com/MicrosoftDocs/microsoft-365-docs/blob/public/microsoft-365/security/office-365-security/permissions-in-the-security-and-compliance-center.md>

### **NEW QUESTION: 170**

You have a Microsoft 365 tenant that contains 500 Windows 10 devices and a Microsoft Endpoint Manager device compliance policy.

You need to ensure that only devices marked as compliant can access Microsoft Office 365 apps. Which policy type should you configure?

**A. conditional access**

**B. account protection**

**C. attack surface reduction (ASR)**

**D. Endpoint detection and response**

**Answer: A** ([LEAVE A REPLY](#))

Reference:

<https://docs.microsoft.com/en-us/mem/intune/protect/device-compliance-get-started>

### **NEW QUESTION: 171**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your network contains an on-premises Active Directory domain. The domain contains 2,000 computers that run Windows 8.1 and have applications installed as shown in the following table.

You enroll all the computers in Upgrade Readiness.

You need to ensure that App1 and App2 have an UpgradeDecision status of Ready to upgrade.

Solution: You set the ReadyForWindows status of App2 to Highly adopted.

Does this meet the goal?

**A. Yes**

**B. No**

**Answer: A** ([LEAVE A REPLY](#))

App1 has a "low install count" (2% or less) so will be Ready to upgrade. We just need to change the setting for App2.

References:

<https://docs.microsoft.com/en-us/windows/deployment/upgrade/upgrade-readiness-identify-apps>

**NEW QUESTION: 172**

You plan to allow users from the engineering department to enroll their mobile device in mobile device management (MDM).

The device type restrictions are configured as shown in the following table.

The device limit restrictions are configured as shown in the following table.

What is the effective configuration for the members of the Engineering group? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

**NEW QUESTION: 173**

You have a Microsoft 365 subscription.

All users have their email stored in Microsoft Exchange Online.

In the mailbox of a user named User 1. You need to preserve a copy of all the email messages that contain the word Project X.

WDM should you do?

- A. From the Security & Compliance admin center, create an eDiscovery case.
- B. From the Exchange admin center, create a mail now rule.
- C. From the Security fit Compliance adman center, start a message trace.
- D. From Microsoft Cloud App Security, create an access policy.

**Answer: D** ([LEAVE A REPLY](#))

## Topic 1, A Datum

## Case Study:

### Overview

### Existing Environment

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

### To start the case study

To display the first question in this case study, click the button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. When you are ready to answer a question, click the Current Infrastructure. A Datum recently purchased a Microsoft 365 subscription.

All user files are migrated to Microsoft 365.

All mailboxes are hosted in Microsoft 365. The users in each office have email suffixes that include the country of the user, for example, user1@us.adatum.com or user2#uk.ad3tum.com.

Each office has a security information and event management (SIEM) appliance. The appliances come from three different vendors.

A Datum uses and processes Personally Identifiable Information (PII).

### Problem Statements

#### Requirements

A Datum entered into litigation. The legal department must place a hold on all the documents of a user named User1 that are in Microsoft 365.

#### Business Goals

A Datum wants to be fully compliant with all the relevant data privacy laws in the regions where it operates.

A Datum wants to minimize the cost of hardware and software whenever possible.

#### Technical Requirements

A Datum identifies the following technical requirements:

Centrally perform log analysis for all offices.

Aggregate all data from the SIEM appliances to a central cloud repository for later analysis.

Ensure that a SharePoint administrator can identify who accessed a specific file stored in a document library.

Provide the users in the finance department with access to Service assurance information in Microsoft Office 365.

Ensure that documents and email messages containing the PII data of European Union (EU) citizens are preserved for 10 years.

If a user attempts to download 1,000 or more files from Microsoft SharePoint Online within 30 minutes, notify a security administrator and suspend the user's user account.

A security administrator requires a report that shows which Microsoft 365 users signed in. Based on the report, the security administrator will create a policy to require multi-factor authentication when a sign in is high risk.

Ensure that the users in the New York office can only send email messages that contain sensitive US.

PII data to other New York office users. Email messages must be monitored to ensure compliance.

Auditors in the New York office must have access to reports that show the sent and received email messages containing sensitive U.S. PII data.

#### **NEW QUESTION: 178**

Your company has a Microsoft 365 subscription.

You need to configure Microsoft 365 to meet the following requirements:

Malware found in email attachments must be quarantined for 20 days.

The email address of senders to your company must be verified.

Which two options should you configure in the Security & Compliance admin center? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

#### **NEW QUESTION: 179**

You have a Microsoft 365 subscription. You have a user named User1.

You need to ensure that User1 can place a hold on all mailbox content.

Which role should you assign to User1?

**A.** e Discovery Manager from the Security & Compliance admin center

**B.** compliance management from the Exchange admin center

**C.** User management administrator from the Microsoft 365 admin center

**D.** Information Protection administrator from the Azure Active Directory admin center

**Answer: A ([LEAVE A REPLY](#))**

Explanation

### NEW QUESTION: 182

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 subscription.

You discover that some external users accessed content on a Microsoft SharePoint site. You modify the SharePoint sharing policy to prevent sharing outside your organization.

You need to be notified if the SharePoint sharing policy is modified in the future.

Solution: From the SharePoint admin center, you modify the sharing settings.

Does this meet the goal?

A. No

B. Yes

**Answer: A** ([LEAVE A REPLY](#))

#### **NEW QUESTION: 183**

You have a Microsoft 365 E5 tenant.

You plan to create a custom Compliance Manager assessment template based on the ISO 27001:2013 template.

You need to export the existing template.

Which file format should you use for the exported template?

A. XLSX

B. JSON

C. XML

**Answer: (**[SHOW ANSWER](#)**)**

Reference:

<https://docs.microsoft.com/en-us/microsoft-365/compliance/compliance-manager-templates?view=o365-worldw>

#### **NEW QUESTION: 184**

Your network contains an Active Directory forest named contoso.com that is synced to Microsoft Azure Active Directory (Azure AD).

You use Microsoft System Center Configuration Manager (Current Branch) for device management.

You have the Windows 10 devices shown in the following table.

You configure Configuration Manager co-management as follows:

Automatic enrollment in Intune: Pilot

Pilot collection: Collection2

You configure co-management workloads as shown in the following exhibit.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

#### **NEW QUESTION: 185**

You have a Microsoft 365 subscription that uses Security & Compliance retention policies.

You implement a preservation lock on a retention policy that is assigned to all executive users.

Which two actions can you perform on the retention policy? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point?

A. Add locations to the policy

B. Extend the duration of the policy

C. Disable the policy

- D. Reduce the duration of policy
- E. Remove locations from the policy

**Answer: A,B** ([LEAVE A REPLY](#))

#### **NEW QUESTION: 186**

##### **HOTSPOT**

Your network contains an Active Directory domain named contoso.com. All client devices run Windows 10 and are joined to the domain.

You update the Windows 10 devices by using Windows Update for Business.

What is the maximum amount of time you can defer Windows 10 updates? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

**Answer:**

Section: [none]

Explanation/Reference:

References:

<https://docs.microsoft.com/en-us/windows/deployment/update/waas-manage-updates-wufb>

#### **NEW QUESTION: 187**

You need to meet the technical requirements and planned changes for Intune.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

Reference:

<https://docs.microsoft.com/en-us/intune/windows-enroll>

#### **NEW QUESTION: 188**

From the Security & Compliance admin center, you create a content export as shown in the exhibit. (Click the Exhibit tab.)

What will be excluded from the export?

- A. a 10-MB XLSX file
- B. a 5-MB MP3 file
- C. a 5-KB RTF file
- D. an 80-MB PPTX file

**Answer: B** ([LEAVE A REPLY](#))

Explanation

Unrecognized file formats are excluded from the search.

Certain types of files, such as Bitmap or MP3 files, don't contain content that can be indexed. As a result, the search indexing servers in Exchange and SharePoint don't perform full-text indexing on these types of files.

These types of files are considered to be unsupported file types.

Reference:

<https://docs.microsoft.com/en-us/microsoft-365/compliance/partially-indexed-items-in-content-search?view=o36>

<https://docs.microsoft.com/en-us/office365/securitycompliance/export-a-content-search-report>

### **NEW QUESTION: 189**

You have a data loss prevention (DLP) policy.

You need to increase the likelihood that the DLP policy will apply to data that contains medical terms from the International Classification of Diseases (ICD-9-CM). The solution must minimize the number of false positives.

Which two settings should you modify? To answer, select the appropriate settings in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

References:

<https://docs.microsoft.com/en-us/office365/securitycompliance/data-loss-prevention-policies>

<https://docs.microsoft.com/en-us/office365/securitycompliance/what-the-sensitive-information-types-look-for#international-classification-of-diseases-icd-9-cm>

### **NEW QUESTION: 190**

Your network contains an on-premises Active Directory domain that syncs to Azure Active Directory (Azure AD). The domain contains the servers shown in the following table.

You use Azure Information Protection.

You need to ensure that you can apply Azure Information Protection labels to the file stores on Server1.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

Explanation

Reference:

<https://docs.microsoft.com/en-us/azure/information-protection/install-configure-rms-connector>

<https://docs.microsoft.com/en-us/azure/information-protection/configure-servers-rms-connector>

### **NEW QUESTION: 191**

You have a Microsoft 365 E5 subscription.

You create an account for a new security administrator named SecAdmin1.

You need to ensure that SecAdmin1 can manage Microsoft Defender for Office 365 settings and policies for Microsoft Teams, SharePoint and OneDrive.

Solution: From the Azure Active Directory admin center, you assign SecAdmin1 the Teams Administrator role.

Does this meet the goal?

A. Yes

B. no

**Answer: B** ([LEAVE A REPLY](#))

### NEW QUESTION: 192

You have a Microsoft 365 E5 subscription that contains two users named Admin1 and Admin2.

All users are assigned a Microsoft 365 Enterprise E5 license and auditing is turned on.

You create the audit retention policy shown in the exhibit. (Click the Exhibit tab.)

After Policy1 is created, the following actions are performed:

\* Admin1 creates a user named User1.

\* Admin2 creates a user named User2.

How long will the audit events for the creation of User1 and User2 be retained? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

**Answer:**

Reference:

<https://docs.microsoft.com/en-us/microsoft-365/compliance/audit-log-retention-policies?view=o365-worldwide>

### NEW QUESTION: 193

You have a Microsoft 365 subscription.

You are configuring permissions for Security & Compliance.

You need to ensure that the users can perform the tasks shown in the following table.

The solution must use the principle of least privilege.

To which role should you assign each user? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Reference:

<https://docs.microsoft.com/en-us/office365/securitycompliance/permissions-in-the-security-and-compliance-center#mapping-of-role-groups-to-assigned-roles>

### NEW QUESTION: 194

You have a Microsoft 365 subscription

All users are assigned a Microsoft 365 E3 License.

You enable auditing for your organization.

What is the maximum amount of time data will be retained in the Microsoft 365 audit log?

- A. 90 days
- B. 2 years
- C. 30 days
- D. 1 year

**Answer: D** ([LEAVE A REPLY](#))

#### **NEW QUESTION: 195**

You have a Microsoft 365 subscription.

In the Exchange admin center, you have a data loss prevention (DLP) policy named Policy1 that has the following configurations:

Block emails that contain financial data.

Display the following policy tip text: Message blocked.

From the Security & Compliance admin center, you create a DLP policy named Policy2 that has the following configurations:

Use the following location: Exchange email.

Display the following policy tip text: Message contains sensitive data.

When a user sends an email, notify the user if the email contains health records.

What is the result of the DLP policies when the user sends an email? To answer, drag the appropriate results to the correct scenarios. Each result may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Answer:**

Reference:

<https://docs.microsoft.com/en-us/microsoft-365/compliance/how-dlp-works-between-admin-centers>

#### **NEW QUESTION: 196**

You have the Microsoft Azure Active Director (Azure AD) users shown in the following table.

You create a conditional access policy that has the following settings:

- \* The Assignments settings are configured as follows:
- \* Users and groups: Group1
- \* Cloud apps: Microsoft Office 365 Exchange Online
- \* Conditions: Include All device state, exclude Device marked as compliant
- \* Access controls is set to Block access.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

**Valid MS-101 Dumps** shared by BraindumpsPass.com for Helping Passing MS-101 Exam! #### NEW QUESTION: 197

Your company uses Microsoft Cloud App Security.

You plan to integrate Cloud App Security and security information and event management (SIEM).

You need to deploy a SIEM agent on a server that runs Windows Server 2016.

What should you do? To answer, select the appropriate settings in the answer area.

NOTE: Each correct selection is worth one point.

#### Answer:

References:

<https://docs.microsoft.com/en-us/office365/securitycompliance/integrate-your-siem-server-with-office-365-cas>

#### NEW QUESTION: 198

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your network contains an Active Directory domain named contoso.com that is synced to Microsoft Azure Active Directory (Azure AD).

You manage Windows 10 devices by using Microsoft System Center Configuration Manager (Current Branch).

You configure a pilot for co-management.

You add a new device named Device1 to the domain. You install the Configuration Manager client on Device1.

You need to ensure that you can manage Device1 by using Microsoft Intune and Configuration Manager.

Solution: You create a device configuration profile from the Device Management admin center. Does this meet the goal?

A. Yes

B. No

Answer: ([SHOW ANSWER](#))

It looks like the given answer is correct. There is an on-premises Active Directory synced to Azure Active Directory (Azure AD) So the co-management path1 - Auto-enroll existing clients 1. Hybrid Azure AD 2. Client agent setting for hybrid Azure AD-join 3. Configure auto-enrollment of devices to Intune 4. Enable co-management in Configuration Manager <https://docs.microsoft.com/en-us/mem/configmgr/comanage/tutorial-co-manage-client>

### **NEW QUESTION: 199**

You need to meet the requirement for the legal department.

Which three actions should you perform in sequence from the Security & Compliance admin center? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

#### **Answer:**

Reference:

<https://www.sherweb.com/blog/ediscovery-office-365/>

### **NEW QUESTION: 200**

From the Microsoft Azure Active Directory (Azure AD) Identity Protection dashboard, you view the risk events shown in the following exhibit.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

#### **Answer:**

Explanation:

References:

<https://docs.microsoft.com/en-us/azure/active-directory/authentication/howto-mfa-getstarted>

<https://docs.microsoft.com/en-us/azure/active-directory/identity-protection/howto-sign-in-risk-policy>

<https://docs.microsoft.com/en-us/azure/active-directory/reports-monitoring/quickstart-configure-named-locations>

### **NEW QUESTION: 201**

You have a new Microsoft 365 subscription.

A user named User1 has a mailbox in Microsoft Exchange Online.

You need to log any changes to the mailbox folder permissions of User1.

Which command should you run? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

#### **Answer:**

### NEW QUESTION: 202

Your company uses Windows Defender Advanced Threat Protection (ATP). Windows Defender ATP includes the machine groups shown in the following table.

You onboard a computer named computer1 to Windows Defender ATP as shown in the following exhibit.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

**Answer:**

### NEW QUESTION: 203

Your network contains an Active Directory domain named contoso.com that uses Microsoft System Center Configuration Manager (Current Branch).

You have Windows 10 and Windows 8.1 devices.

You need to ensure that you can analyze the upgrade readiness of all the Windows 8.1 devices and analyze the update compliance of all the Windows 10 devices.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

References:

<https://docs.microsoft.com/en-us/windows/deployment/upgrade/upgrade-readiness-get-started>

<https://docs.microsoft.com/en-us/windows/deployment/update/update-compliance-get-started>

### NEW QUESTION: 204

A user receives the following message when attempting to sign in to

<https://myapps.microsoft.com>:

"Your sign-in was blocked. We've detected something unusual about this sign-in. For example, you might be signing in from a new location device, or app. Before you can continue, we need to verify your identity. Please contact your admin." Which configuration prevents the users from signing in?

- A. Microsoft Azure Active Directory (Azure AD) Identity Protection policies
- B. Microsoft Azure Active Directory (Azure AD) conditional access policies
- C. Security & Compliance supervision policies
- D. Security & Compliance data loss prevention (DIP) policies

**Answer: B ([LEAVE A REPLY](#))**

References:

<https://docs.microsoft.com/en-us/azure/active-directory/conditional-access/overview>

#### **NEW QUESTION: 205**

You have a Microsoft 365 tenant.

You discover that administrative tasks are unavailable in the Microsoft Office 365 audit logs of the tenant.

You run the Get-AdminAuditLogConfig cmdlet and receive the following output:

You need to ensure that administrative tasks are logged in the Office 365 audit logs.

Which attribute should you modify?

- A.** TestCmdletLoggingEnabled
- B.** UnifiedAuditLogIngestionEnabled
- C.** AdminAuditLogEnabled

**Answer: B** ([LEAVE A REPLY](#))

Explanation/Reference:

References:

<https://docs.microsoft.com/en-us/powershell/module/exchange/policy-and-compliance-audit/set-adminauditlogconfig?view=exchange-ps>

#### **NEW QUESTION: 206**

From the Security & Compliance admin center, you create a retention policy named Policy1.

You need to prevent all users from disabling the policy or reducing the retention period.

Which command should you run? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

References:

<https://docs.microsoft.com/en-us/powershell/module/exchange/policy-and-compliance-retention/set-retentioncom>

#### **NEW QUESTION: 207**

You plan to allow users from the engineering department to enroll their mobile device in mobile device management (MDM).

The device type restrictions are configured as shown in the following table.

The device limit restrictions are configured as shown in the following table.

What is the effective configuration for the members of the Engineering group? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

#### **NEW QUESTION: 208**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft Azure Active Directory (Azure AD) tenant named contoso.com.

You create an Azure Advanced Threat Protection (ATP) workspace named Workspace1.

The tenant contains the users shown in the following table.

You need to modify the configuration of the Azure ATP sensors.

Solution: You instruct User 3 to modify the Azure ATP sensor configuration. Does this meet the goal?

A. Yes

B. No

**Answer: B** ([LEAVE A REPLY](#))

Explanation

Only Azure ATP administrators can modify the sensors.

Any global administrator or security administrator on the tenant's Azure Active Directory is automatically an Azure ATP administrator.

Reference:

<https://docs.microsoft.com/en-us/azure-advanced-threat-protection/atp-role-groups>

## NEW QUESTION: 209

You need to meet the technical requirement for large-volume document retrieval. What should you create?

A. a data loss prevention (DLP) policy from the Security & Compliance admin center

B. an alert policy from the Security & Compliance admin center

C. a file policy from Microsoft Cloud App Security

D. an activity policy from Microsoft Cloud App Security

**Answer: D** ([LEAVE A REPLY](#))

References:

<https://docs.microsoft.com/en-us/office365/securitycompliance/activity-policies-and-alerts>

Topic 1, Overview

Existing Environment

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. When you are ready to answer a question, click the Question button to return to the question.

Current Infrastructure

All user files are migrated to Microsoft 365.

All mailboxes are hosted in Microsoft 365. The users in each office have email suffixes that include the country of the user, for example, user1@us.adatum.com or user2#uk.ad3tum.com. Each office has a security information and event management (SIEM) appliance. The appliances come from three different vendors.

Problem Statements

Requirements

Business Goals

Technical Requirements

Centrally perform log analysis for all offices.

Aggregate all data from the SIEM appliances to a central cloud repository for later analysis.

Ensure that a SharePoint administrator can identify who accessed a specific file stored in a document library.

Provide the users in the finance department with access to Service assurance information in Microsoft Office 365.

Ensure that documents and email messages containing the PII data of European Union (EU) citizens are preserved for 10 years.

If a user attempts to download 1,000 or more files from Microsoft SharePoint Online within 30 minutes, notify a security administrator and suspend the user's user account.

A security administrator requires a report that shows which Microsoft 365 users signed in. Based on the report, the security administrator will create a policy to require multi-factor authentication when a sign in is high risk.

Ensure that the users in the New York office can only send email messages that contain sensitive US. PII data to other New York office users. Email messages must be monitored to ensure compliance. Auditors in the New York office must have access to reports that show the sent and received email messages containing sensitive U.S. PII data.

## **NEW QUESTION: 210**

You have three devices enrolled in Microsoft Intune as shown in the following table.

The device compliance policies in Intune are configured as shown in the following table.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

Yes

Yes

Yes

### NEW QUESTION: 211

Your company has a Microsoft 365 subscription that uses an Azure Active Directory (Azure AD) tenant named contoso.com. The tenant contains the users shown in the following table.

You create a retention label named Label1 that has the following configurations:

- \* Retains content for five years
- \* Automatically deletes all content that is older than five years

You turn on Auto labeling for Label1 by using a policy named Policy1. Policy1 has the following configurations:

- \* Applies to content that contains the word Merger
- \* Specifies the OneDrive accounts and SharePoint sites locations

You run the following command.

```
Set-RetentionCompliancePolicy Policy1 -RestrictiveRetention $true  
-Force
```

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

<https://docs.microsoft.com/en-us/windows/security/threat-protection/windows-defender-atp/configure-server-endpoints-windows-defender-advanced-threat-protection>

### **NEW QUESTION: 214**

You have a Microsoft 365 tenant that contains a Windows 10 device named Device1 and the Microsoft Endpoint Manager policies shown in the following table.

The policies are assigned to Device1.

Which policy settings will be applied to Device1?

- A. no settings
- B. only the settings of Policy2
- C. only the settings of Policy1
- D. only the settings of Policy3

**Answer:** ([SHOW ANSWER](#))

### **NEW QUESTION: 215**

You have a Microsoft 365 subscription.

All users are assigned Microsoft Azure Active Directory Premium licenses.

From the Device Management admin center, you set Microsoft Intune as the MDM authority.

You need to ensure that when the members of a group named Marketing join a device to Azure Active Directory (Azure AD), the device is enrolled automatically in Intune. The Marketing group members must be limited to five devices enrolled in Intune.

Which two options should you use to perform the configurations? To answer, select the appropriate blades in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Device enrollment manager (DEM) is an Intune permission that can be applied to an Azure AD user account and lets the user enroll up to 1,000 devices. You can create and manage enrollment restrictions that define what devices can enroll into management with Intune, including the:

- \* Number of devices.

- \* Operating systems and versions.

The Marketing group members must be limited to five devices enrolled in Intune. References:

<https://docs.microsoft.com/en-us/intune/enrollment/device-enrollment-manager-enroll>

<https://docs.microsoft.com/en-us/intune/enrollment/enrollment-restrictions-set>

**NEW QUESTION: 216**

You have a Microsoft 365 E5 tenant.

You configure sensitivity labels.

Users report that the Sensitivity button is unavailable in Microsoft Word for the web. The sensitivity button is available in Word for Microsoft 365.

You need to ensure that the users can apply the sensitivity labels when they use Word for the web.

What should you do?

**A.** Enable sensitivity labels for files in Microsoft SharePoint Online and OneDrive.

**B.** Copy policies from Azure Information Protection to the Microsoft 365 Compliance center.

**C.** Create an auto-labeling policy.

**D.** Publish the sensitivity labels.

**Answer: D** ([LEAVE A REPLY](#))

**NEW QUESTION: 217**

You have a Microsoft 365 tenant.

You discover that administrative tasks are unavailable in the Microsoft Office 365 audit logs of the tenant.

You run the Get-AdminAuditLogConfig cmdlet and receive the following output:

You need to ensure that administrative tasks are logged in the Office 365 audit logs.

Which attribute should you modify?

**A.** TestCmdletLoggingEnabled

**B.** UnifiedAuditLogIngestionEnabled

**C.** AdminAuditLogEnabled

**Answer: B** ([LEAVE A REPLY](#))

Explanation

References:

<https://docs.microsoft.com/en-us/powershell/module/exchange/policy-and-compliance-audit/set-adminauditlogco>

### NEW QUESTION: 218

You have a Microsoft 365 subscription.

All users have their email stored in Microsoft Exchange Online.

In the mailbox of a user named User1, you need to preserve a copy of all the email messages that contain the word ProjectX.

What should you do?

**A.** From the Security & Compliance admin center, create a data loss prevention (DLP) policy.

**B.** From the Security & Compliance admin center, create a label and a label policy.

**C.** From the Security & Compliance admin center, start a message trace.

**D.** From Microsoft Cloud App Security, create an activity policy.

**Answer: (**[SHOW ANSWER](#)**)**

Section: [none]

### NEW QUESTION: 219

You have a Microsoft 365 ES tenant.

You have the alerts shown in the following exhibit.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

**Answer:**

### NEW QUESTION: 220

You have a Microsoft Azure Activity Directory (Azure AD) tenant contains the users shown in the following table.

Group3 is a member of Group1.

Your company uses Windows Defender Advanced Threat Protection (ATP). Windows Defender ATP contains the roles shown in the following table.

Windows Defender ATP contains the device groups shown in the following table.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

**NEW QUESTION: 221**

You have a Microsoft Azure Active Directory (Azure AD) tenant named contoso.com. You have three applications named App1, App2, and App3 that have the same file format. Your company uses Windows Information Protection (WIP). WIP has the following configurations:

\*Windows Information Protection mode: Silent

\*Protected apps: App1

\*Exempt apps: App2

From App1 you create a file named File1.

What is the effect of the configurations? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

**NEW QUESTION: 222**

DRAG DROP

You have the Microsoft Azure Advanced Threat Protection (ATP) workspace shown in the Workspace exhibit.

(Click the Workspace tab.)

The sensors settings for the workspace are configured as shown in the Sensors exhibit. (Click the Sensors tab.)

You need to ensure that Azure ATP stores data in Asia.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

**Answer:**

Section: [none]

**NEW QUESTION: 223**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your network contains an on-premises Active Directory domain. The domain contains 2,000 computers that run Windows 8.1 and have applications installed as shown in the following table.

You enroll all the computers in Upgrade Readiness.

You need to ensure that App1 and App2 have an UpgradeDecision status of Ready to upgrade.

Solution: You set the ReadyForWindows status of App1 to Highly adopted.

Does this meet the goal?

A. Yes

B. No

**Answer:** ([SHOW ANSWER](#))

Explanation

App1 has a "low install count" (2% or less) so will be Ready to upgrade. We need to change the setting for App2.

References:

<https://docs.microsoft.com/en-us/windows/deployment/upgrade/upgrade-readiness-identify-apps>

### NEW QUESTION: 224

From the Security & Compliance admin center, you create a content export as shown in the exhibit. (Click the Exhibit tab.)

What will be excluded from the export?

A. a 10-MB XLSX file

B. a 5-MB MP3 file

C. a 5-KB RTF file

D. an 80-MB PPTX file

**Answer:** ([SHOW ANSWER](#))

Unrecognized file formats are excluded from the search.

Certain types of files, such as Bitmap or MP3 files, don't contain content that can be indexed. As a result, the search indexing servers in Exchange and SharePoint don't perform full-text indexing on these types of files. These types of files are considered to be unsupported file types.

Reference:

<https://docs.microsoft.com/en-us/microsoft-365/compliance/partially-indexed-items-in-content-search?view=o365-worldwide>

<https://docs.microsoft.com/en-us/office365/securitycompliance/export-a-content-search-report>

### NEW QUESTION: 225

You have a Microsoft 365 subscription.

You need to implement Windows Defender Advanced Threat Protection (ATP) for all the supported devices enrolled in mobile device management (MDM).

What should you include in the device configuration profile? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

References:

<https://docs.microsoft.com/en-us/intune/advanced-threat-protection>

### NEW QUESTION: 226

You have a Microsoft 365 subscription.

You are configuring permissions for Security & Compliance.

You need to ensure that the users can perform the tasks shown in the following table.

The solution must use the principle of least privilege.

To which role should you assign each user? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

<https://docs.microsoft.com/en-us/office365/securitycompliance/permissions-in-the-security-and-compliance-center#mapping-of-role-groups-to-assigned-roles>

**NEW QUESTION: 227**

You have the Microsoft Azure Advanced Threat Protection (ATP) workspace shown in the Workspace exhibit.

(Click the Workspace tab.)

The sensors settings for the workspace are configured as shown in the Sensors exhibit. (Click the Sensors tab.)

You need to ensure that Azure ATP stores data in Asia.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

Explanation

<https://docs.microsoft.com/en-us/azure-advanced-threat-protection/install-atp-step1>

**NEW QUESTION: 228**

Your company uses Microsoft Cloud App Security.

You plan to integrate Cloud App Security and security information and event management (SIEM).

You need to deploy a SIEM agent on a server that runs Windows Server 2016.

What should you do? To answer, select the appropriate settings in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

References:

<https://docs.microsoft.com/en-us/office365/securitycompliance/integrate-your-siem-server-with-office-365-cas>

### NEW QUESTION: 229

You have a Microsoft 365 subscription and an on-premises Active Directory domain named contoso.com. All client computers run Windows 10 Enterprise and are joined to the domain. You need to enable Windows Defender Credential Guard on all the computers.

What should you do?

- A. From the Security & Compliance admin center, configure the DKIM signatures for the domain.
- B. From a domain controller, create a Group Policy object (GPO) that enables the Restrict delegation of credentials to remote servers setting.
- C. From the Security & Compliance admin center, create a device security policy.
- D. From a domain controller, create a Group Policy object (GPO) that enabled the Turn On Virtualization Based Security setting.

**Answer:** ([SHOW ANSWER](#))

Explanation/Reference:

<https://docs.microsoft.com/en-us/windows/security/identity-protection/credential-guard/credential-guard-manage>

### NEW QUESTION: 230

Your company uses Windows Defender Advanced Threat Protection (ATP). Windows Defender ATP contains the device groups shown in the following table.

You onboard computers to Windows Defender ATP as shown in the following table.

Of which groups are Computer1 and Computer2 members? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

### NEW QUESTION: 231

You have a Microsoft 365 subscription that contains the users shown in the following table.

You configure an Enrollment Status Page profile as shown in the following exhibit.

You assign the policy to Group1.

You purchase the devices shown in the following table.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Reference:

<https://docs.microsoft.com/en-us/mem/intune/enrollment/windows-enrollment-status>

**NEW QUESTION: 232**

Your company has a Microsoft 365 subscription that uses an Azure Active Directory (Azure AD) tenant named contoso.com. The company stores 2 TBs of data in SharePoint Online document libraries.

The tenant has the labels shown in the following table.

From the Azure portal, you activate unified labeling.

For each of the following statements, select yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

**NEW QUESTION: 233**

You have a Microsoft Azure Active Directory (Azure AD) tenant named contoso.com.

You need to provide a user with the ability to sign up for Microsoft Store for Business for contoso.com. The solution must use the principle of least privilege.

Which role should you assign to the user?

- A. Cloud application administrator
- B. Application administrator
- C. Global administrator
- D. Service administrator

**Answer:** ([SHOW ANSWER](#))

Explanation

References:

<https://docs.microsoft.com/en-us/microsoft-store/roles-and-permissions-microsoft-store-for-business>

**NEW QUESTION: 234**

You need to meet the technical requirement for log analysis.

What is the minimum number of data sources and log collectors you should create from Microsoft Cloud App Security? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Reference:

<https://docs.microsoft.com/en-us/cloud-app-security/discovery-docker>

**NEW QUESTION: 235**

Your company has offices in five cities.

The company has a Microsoft 365 tenant.

Each office is managed by a local administrator.

You plan to deploy Microsoft Intune.

You need to recommend a solution to manage resources in Intune that meets the following requirements:

- \* Local administrators must be able to manage only the resources in their respective office. Local administrators must be prevented from managing resources in other offices.

- \* Administrative effort must be minimized.

A. scope tags

B. configuration profiles

C. device categories

D. conditional access policies

**Answer: A** ([LEAVE A REPLY](#))

#### **NEW QUESTION: 236**

You have device compliance policies shown in the following table.

The device compliance state for each policy is shown in the following table.

NOTE: Each correct selection is worth one point.

**Answer:**

#### **NEW QUESTION: 237**

Your company is based in the United Kingdom (UK).

Users frequently handle data that contains Personally Identifiable Information (PII).

You create a data loss prevention (DLP) policy that applies to users inside and outside the company. The policy is configured as shown in the following exhibit.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

**Answer:**

#### **NEW QUESTION: 238**

You have a document in Microsoft OneDrive that is encrypted by using Microsoft Azure Information Protection as shown in the following exhibit.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

**Answer:**

Reference:

<https://docs.microsoft.com/en-us/azure/information-protection/configure-policy-protection>

### NEW QUESTION: 239

You have a Microsoft 365 subscription.

From the Security & Compliance admin center, you create a content search of a mailbox.

You need to view the content of the mail messages found by the search as quickly as possible.

What should you select from the Content search settings?

- A. Export report
- B. Export results
- C. Re-run
- D. View results

**Answer: B** ([LEAVE A REPLY](#))

Section: [none]

Explanation:

There is no "View Results" option. You can preview results but that will only show up to 100 emails. To guarantee you're getting all results, you'll need to export them to a PST file.

References:

<https://docs.microsoft.com/en-us/microsoft-365/compliance/limits-for-content-search>

### NEW QUESTION: 240

You have a Microsoft 365 subscription that contains three groups named All users, Sales team, and Office users, and two users shown in the following table.

In Microsoft Endpoint Manager, you have the Policies for Office apps settings shown in the following exhibit.

The policies use the settings shown in the following table.

What is the default share folder location for User1 and the default Office theme for User2? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

Table Description automatically generated

Reference:

<https://docs.microsoft.com/en-us/deployoffice/overview-office-cloud-policy-service>

### NEW QUESTION: 241

Your network contains an Active Directory domain named contoso.com. The domain contains the file servers shown in the following table.

A file named File1.abc is stored on Server1. A file named File2.abc is stored on Server2. Three apps named App1, App2, and App3 all open files that have the .abc file extension.

You implement Windows Information Protection (WIP) by using the following configurations:

\* Exempt apps: App2

- \* Protected apps: App1
- \* Windows Information Protection mode: Block
- \* Network boundary: IPv4 range of: 192.168.1.1-192.168-1.255

You need to identify the apps from which you can open File1.abc.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

References:

<https://docs.microsoft.com/en-us/windows/security/information-protection/windows-information-protection/crea>

**NEW QUESTION: 242**

You have a Microsoft 365 subscription.

You create a Microsoft Cloud App Security policy named Risk1 based on the Logon from a risky IP address template as shown in the following exhibit.

You have two users named User1 and User2. Each user signs in to Microsoft SharePoint Online from a risky IP address 10 times within 24 hours.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

**NEW QUESTION: 243**

You have a Microsoft 365 subscription.

Your network uses an IP address space of 51.40.15.0/24.

An Exchange Online administrator recently created a role named Role1 from a computer on the network.

You need to identify the name of the administrator by using an audit log search.

For which activities should you search and by which field should you filter in the audit log search?

To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation

**NEW QUESTION: 244**

Which report should the New York office auditors view?

- A. DLP policy matches
- B. DLP false positives and overrides
- C. DLP incidents
- D. Top Senders and Recipients

**Answer: ([SHOW ANSWER](#))**

Explanation

References:

<https://docs.microsoft.com/en-us/office365/securitycompliance/data-loss-prevention-policies> This report also shows policy matches over time, like the policy matches report. However, the policy matches report shows matches at a rule level; for example, if an email matched three different rules, the policy matches report shows three different line items. By contrast, the incidents report shows matches at an item level; for example, if an email matched three different rules, the incidents report shows a single line item for that piece of content. Because the report counts are aggregated differently, the policy matches report is better for identifying matches with specific rules and fine tuning DLP policies. The incidents report is better for identifying specific pieces of content that are problematic for your DLP policies.

Topic 3, Litware Inc.

**Case Study**

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is

identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the button to return to the question.

## Overview

### General Overviews

Litware, Inc. is a technology research company. The company has a main office in Montreal and a branch office in Seattle.

### Environment

#### Existing Environment

The network contains an on-premises Active Directory domain named litware.com. The domain contains the users shown in the following table.

#### Microsoft Cloud Environment

Litware has a Microsoft 365 subscription that contains a verified domain named litware.com. The subscription syncs to the on-premises domain.

Litware uses Microsoft Intune for device management and has the enrolled devices shown in the following table.

Litware.com contains the security groups shown in the following table.

Litware uses Microsoft SharePoint Online and Microsoft Teams for collaboration.

The verified domain is linked to an Azure Active Directory (Azure AD) tenant named litware.com.

Audit log search is turned on for the litware.com tenant.

### Problem Statements

Litware identifies the following issues:

- \* Users open email attachments that contain malicious content.
- \* Devices without an assigned compliance policy show a status of Compliant.
- \* User1 reports that the Sensitivity option in Microsoft Office for the web fails to appear.
- \* Internal product codes and confidential supplier ID numbers are often shared during Microsoft Teams meetings and chat sessions that include guest users and external users.

### Requirements

#### Planned Changes

Litware plans to implement the following changes:

- \* Implement device configuration profiles that will configure the endpoint protection template settings for supported devices.
- \* Configure information governance for Microsoft OneDrive, SharePoint Online, and Microsoft Teams.
- \* Implement data loss prevention (DLP) policies to protect confidential information.
- \* Grant User2 permissions to review the audit logs of the litware.com tenant.
- \* Deploy new devices to the Seattle office as shown in the following table.
- \* Implement a notification system for when DLP policies are triggered.
- \* Configure a Safe Attachments policy for the litware.com tenant.

### Technical Requirements

Litware identifies the following technical requirements:

\* Retention settings must be applied automatically to all the data stored in SharePoint Online sites, OneDrive accounts, and Microsoft Teams channel messages, and the data must be retained for five years.

\* Emails messages that contain attachments must be delivered immediately, and placeholder must be provided for the attachments until scanning is complete.

\* All the Windows 10 devices in the Seattle office must be enrolled in Intune automatically when the devices are joined to or registered with Azure AD.

\* Devices without an assigned compliance policy must show a status of Not Compliant in the Microsoft Endpoint Manager admin center.

A notification must appear in the Microsoft 365 compliance center when a DLP policy is triggered.

User2 must be granted the permissions to review audit logs for the following activities:

- Admin activities in Microsoft Exchange Online
- Admin activities in SharePoint Online
- Admin activities in Azure AD

Users must be able to apply sensitivity labels to documents by using Office for the web.

Windows Autopilot must be used for device provisioning, whenever possible.

A DLP policy must be created to meet the following requirements:

- Confidential information must not be shared in Microsoft Teams chat sessions, meetings, or channel messages.
- Messages that contain internal product codes or supplier ID numbers must be blocked and deleted.

The principle of least privilege must be used.

### **NEW QUESTION: 245**

As of March, how long will the computers in each office remain supported by Microsoft? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

#### **Answer:**

Explanation

Seattle 24 Months

New York 18 Months

<https://support.microsoft.com/en-gb/help/13853/windows-lifecycle-fact-sheet> March Feature Updates:

Serviced for 18 months from release date September Feature Updates: Serviced for 30 months from release date References:

<https://www.windowscentral.com/whats-difference-between-quality-updates-and-feature-updates-windows-10>

### **NEW QUESTION: 246**

You are testing a data loss prevention (DLP) policy to protect the sharing of credit card information with external users.

During testing, you discover that a user can share credit card information with external users by using email.

However, the user is prevented from sharing files that contain credit card information by using Microsoft SharePoint Online.

You need to prevent the user from sharing the credit card information by using email and SharePoint.

What should you configure?

- A. the locations of the DLP policy
- B. the user overrides of the DLP policy rule
- C. the status of the DLP policy
- D. the conditions of the DLP policy rule

**Answer: A** ([LEAVE A REPLY](#))

Explanation

References:

<https://docs.microsoft.com/en-us/office365/securitycompliance/data-loss-prevention-policies>

#### **NEW QUESTION: 247**

You have the Microsoft Azure Active Director (Azure AD) users shown in the following table.

You create a conditional access policy that has the following settings:

- \* The Assignments settings are configured as follows:
- \* Users and groups: Group1
- \* Cloud apps: Microsoft Office 365 Exchange Online
- \* Conditions: Include All device state, exclude Device marked as compliant
- \* Access controls is set to Block access.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

#### **NEW QUESTION: 248**

You have a Microsoft 365 F5 subscription.

You plan to deploy 100 new Windows 10 devices.

You need to order the appropriate version of Windows 10 for the new devices. The version must Meet the following requirements.

Be serviced for a minimum of 24 months.

Support Microsoft Application Virtualization (App-V)

Which version should you identify?

- A. Window 10 Pro, version 1909
- B. Window 10 Pro, version 2004
- C. Window 10 Pro, version 1909
- D. Window 10 Enterprise, version 2004

**Answer: D** ([LEAVE A REPLY](#))

Reference:

<https://docs.microsoft.com/en-us/windows/release-health/release-information>

<https://docs.microsoft.com/en-us/windows/application-management/app-v/appv-supported-configurations>

### **NEW QUESTION: 249**

You have an eDiscovery case shown in the follow table.

For each of the following statements select yes if the statement is true. Otherwise, select NO.

NOTE: each correct selection is worth one point.

**Answer:**

### **NEW QUESTION: 250**

Your company has a Microsoft 365 subscription that uses an Azure Directory (Azure AD) tenant named Contoso.com. The tenant contains the users shown in the following table.

You create a retention label named Label1 that has the following configurations:

Retains content for five years.

Automatically deletes all content that is older than five years.

You turn on Auto labeling for Label1 by using a policy named Policy1. Policy1 has the following configurations:

- \* Retains content for five years

- \* Automatically deletes all content that is older than five years

You turn on Auto labeling for Label 1 by using a policy named Policy1. Policy has the following configurations:

- \* Applies to content that contains the word Merger

- \* Specifies the OneDrive accounts and SharePoint sites locations

You run the following command

Set-RetentionCompliancePolicy Policy1 RestrictiveRetention \$true -Force

For each of the following statements select Yes if the statement is true Otherwise, select No

NOTE: Each correct selection is worth one point.

**Answer:**

### **NEW QUESTION: 251**

You have a Microsoft 365 E5 tenant that contains 500 Android devices enrolled in Microsoft Intune.

You need to use Microsoft Endpoint Manager to deploy a managed Google Play app to the devices.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

Explanation

Graphical user interface, text, application Description automatically generated

Reference:

<https://docs.microsoft.com/en-us/mem/intune/apps/apps-add-android-for-work#assign-a-managed-google-play-a>

### **NEW QUESTION: 252**

From the Microsoft Azure Active Directory (Azure AD) Identity Protection dashboard, you view the risk events shown in the following exhibit.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

References:

<https://docs.microsoft.com/en-us/azure/active-directory/authentication/howto-mfa-getstarted>

<https://docs.microsoft.com/en-us/azure/active-directory/identity-protection/howto-sign-in-risk-policy>

<https://docs.microsoft.com/en-us/azure/active-directory/reports-monitoring/quickstart-configure-named-locations>

### **NEW QUESTION: 253**

You need to ensure that User2 can review the audit logs. The solutions must meet the technical requirements.

To which role group should you add User2, and what should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Reference:

<https://docs.microsoft.com/en-us/microsoft-365/compliance/search-the-audit-log-in-security-and-compliance?view=o365-worldwide>

### **NEW QUESTION: 254**

You have a Microsoft 365 tenant that contains 1,000 iOS devices enrolled in Microsoft Intune.

You plan to purchase volume-purchased apps and deploy the apps to the devices. You need to track used licenses and manage the apps by using Intune. What should you use to purchase the apps?

- A.** Microsoft Store for Business
- B.** Apple Business Manager
- C.** Apple Configurator
- D.** Apple iTunes Store

**Answer: B ([LEAVE A REPLY](#))**

### **NEW QUESTION: 255**

You need to grant a user a named User1 access to download compliance reports from the Security & Compliance reports from the Security from the Security & Compliance admin center. The solution must use the principle of least privilege.

What should you do?

- A.** Add User1 to the Security Reader role group
- B.** Create a new role group that has the Preview role and add User1 to the role group.
- C.** Add user1 to the Compliance Administrator role group.
- D.** Add User1 to the Service Assurance User role group.

**Answer: A ([LEAVE A REPLY](#))**

Topic 1, A. Datum

Overview

Existing Environment

This is a case study Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. When you are ready to answer a question, click the Current Infrastructure A . Datum recently purchased a Microsoft 365 subscription.

All user files are migrated to Microsoft 365.

All mailboxes are hosted in Microsoft 365. The users in each office have email suffixes that include the country of the user, for example, user1@us.adatum.com or user2#uk.ad3tum.com. Each office has a security information and event management (SIEM) appliance. The appliances come from three different vendors.

A . Datum uses and processes Personally Identifiable Information (PII).

Problem Statements

Requirements

A . Datum entered into litigation. The legal department must place a hold on all the documents of a user named User1 that are in Microsoft 365.

#### Business Goals

A . Datum wants to be fully compliant with all the relevant data privacy laws in the regions where it operates.

A . Datum wants to minimize the cost of hardware and software whenever possible.

#### Technical Requirements

A . Datum identifies the following technical requirements:

- \* Centrally perform log analysis for all offices.
- \*Aggregate all data from the SIEM appliances to a central cloud repository for later analysis.
- \*Ensure that a SharePoint administrator can identify who accessed a specific file stored in a document library.
- \*Provide the users in the finance department with access to Service assurance information in Microsoft Office 365.
- \*Ensure that documents and email messages containing the PII data of European Union (EU) citizens are preserved for 10 years.
- \*If a user attempts to download 1,000 or more files from Microsoft SharePoint Online within 30 minutes, notify a security administrator and suspend the user's user account.
- \*A security administrator requires a report that shows which Microsoft 365 users signed in. Based on the report, the security administrator will create a policy to require multi-factor authentication when a sign in is high risk.
- \*Ensure that the users in the New York office can only send email messages that contain sensitive U.S. PII data to other New York office users. Email messages must be monitored to ensure compliance. Auditors in the New York office must have access to reports that show the sent and received email messages containing sensitive U.S. PII data.

#### **NEW QUESTION: 256**

You have a Microsoft 365 E5 subscription that includes the following active eDiscovery case:

Name: Case1

Included content: Group1, User1, Site1

Hold location: Exchange mailboxes, SharePoint sites, Exchange public folders The investigation for Case1 completes, and you close the case.

What occurs after you close Case1? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

#### **Answer:**

Explanation

### NEW QUESTION: 257

You have 100 computers that run Windows 8.1 and are enrolled in Upgrade Readiness.

Two of the computers are configured as shown in the following table.

From Upgrade Readiness, you view the applications shown in the following table.

You enroll a computer named Computer3 in Upgrade Readiness. Computer3 has the following configurations:

8 GB of memory

64-bit architecture

An application named App3 installed

App3 is installed on Computer3 only.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**
