NEW QUESTION: 137

What is the purpose of Azure Active Directory (Azure AD) Password Protection?

- A. to control how often users must change their passwords
- B. to identify devices to which users can sign in without using multi-factor authentication (MFA)
- C. to encrypt a password by using globally recognized encryption standards
- D. to prevent users from using specific words in their passwords

Answer: D ([LEAVE A REPLY](#))

Explanation

Azure AD Password Protection detects and blocks known weak passwords and their variants, and can also block additional weak terms that are specific to your organization.

With Azure AD Password Protection, default global banned password lists are automatically applied to all users in an Azure AD tenant. To support your own business and security needs, you can define entries in a custom banned password list.

Answer: ([SHOW ANSWER](#)**)**

Microsoft Purview Compliance Manager is a feature in the Microsoft Purview compliance portal that helps you manage your organization's compliance requirements with greater ease and convenience. Compliance Manager can help you throughout your compliance journey, from taking inventory of your data protection risks to managing the complexities of implementing controls, staying current with regulations and certifications, and reporting to auditors. Watch the video below to learn how Compliance Manager can help simplify how your organization manages compliance:

Compliance Manager helps simplify compliance and reduce risk by providing:

- Pre-built assessments for common industry and regional standards and regulations, or custom assessments to meet your unique compliance needs (available assessments depend on your licensing agreement; learn more).
- Workflow capabilities to help you efficiently complete your risk assessments through a single tool.
- Detailed step-by-step guidance on suggested improvement actions to help you comply with the standards and regulations that are most relevant for your organization. For actions that are managed by Microsoft, you'll see implementation details and audit results.
- A risk-based compliance score to help you understand your compliance posture by measuring your progress in completing improvement actions.
