### NEW QUESTION: 1

In Financials, you want to see asset related expenses such as depreciation, amortization, and insurance.

Which describes the steps you can take to set this up? (Choose the best answer.)

- A. On the Configure page for Financials, when enabling features, include a custom dimension to store asset related information.
- B. On the Configure page for Financials, select Asset Accounts to set up the accounts from Capital that map to Financials.
- C. On the Configure page for Capital, select the option to map Capital accounts to financial accounts. Then for each Capital account, select a financial account to map to.
- D. Set up the Equipment Expense Reporting Capex data map to map asset related expenses to Financials.

**Answer:** ([SHOW ANSWER](#))

### NEW QUESTION: 2

Which two roles can be set for Strategic Modeling? Choose two.

- A. Planner
- B. Analyst
- C. Modeler
- D. Forecaster

**Answer:** B,C ([LEAVE A REPLY](#))

### NEW QUESTION: 3

Which two statements are true regarding the creation and management of business rules in module-based Planning? (Choose two.)

- A. Custom business rules can be created for each module.

- B. Custom business rules for modules can only be created using the graphical designer.
- C. Pre-defined business rules for modules may be modified, but may be ignored after an application upgrade.
- D. Modules cannot use regular business rules. Instead, they must be scripted using Groovy.

**Answer: A,B ([LEAVE A REPLY](#))**

#### **NEW QUESTION: 4**

Which migration category is required to restore dimensional security? (Choose the best answer.)

- A. Calculation Manager
- B. Planning
- C. Reporting
- D. Groups and Memberships

**Answer: D ([LEAVE A REPLY](#))**

#### **NEW QUESTION: 5**

Which two clients or command line tools can you download from Planning? (Choose two.)

- A. Strategic Modeling Smart View add-on
- B. Data Management
- C. EPM Automate
- D. Calculation Manager

**Answer: A,C ([LEAVE A REPLY](#))**

#### **NEW QUESTION: 6**

When defining data load mappings in Data Management, what are the available types of member mappings? (Choose the best answer.)

- A. Explicit, Range, In, Ignore, Like
- B. Explicit, Between, In, Multi Dimension, Like
- C. Explicit, Range, In, Multi Dimension, Like
- D. Explicit, Range, In, Multi Dimension, As

**Answer: B ([LEAVE A REPLY](#))**

#### **NEW QUESTION: 7**

What are the two primary use cases for an ASO reporting cube? (Choose two.)

- A. You want to create and execute Calculation Manager business rules
- B. You want to create, maintain, and report on Attribute dimensions
- C. You want to report on new Planning data originating from any source, such as a data warehouse
- D. You want to report on Smart Lists in Planning, which you can't do in Planning

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 8**

In Data Management, what are the steps you need to perform to synchronize the application metadata in the target application? (Choose the best answer.)

- A. In Data Management, to Target Application and select your Planning application. Click Refresh Metadata.
- B. In Data Management, navigate to Application Dimensions and click Refresh Dimensions.
- C. In Data Management, navigate to Target Application and select your Planning application. Click Refresh Members.
- D. In Data Management, navigate to Import Format and select your Planning application. Click Refresh Dimensions.

**Answer:** ([SHOW ANSWER](#))

**NEW QUESTION: 9**

In porting data from a BSO plan type to an ASO plan type, which method cannot be utilized? Choose the best answer.

- A. XWRITE business rule
- B. Data Maps
- C. Smart Push
- D. Export/Import Capabilities

**Answer:** A ([LEAVE A REPLY](#))

**NEW QUESTION: 10**

What is the correct sequence of steps for enabling each Planning module? Choose the best answer.

- A. Enable the module, refresh the database
- B. Run pre-configuration tasks, enable the module, configure the module
- C. Enable the module, configure the module, run post configuration tasks
- D. Configure the module, refresh the database

**Answer:** ([SHOW ANSWER](#))

**NEW QUESTION: 11**

Which three security design principles can help reduce overall security maintenance and troubleshooting, while still balancing security control? (Choose three.)

- A. Configuring single sign-on (SSO)
- B. Assigning global read access to each cube, then fine-tuning none and write access within dimensional security
- C. Using inherited permissions
- D. Creating groups over assigning individual access permissions to users
- E. Assigning a higher level role than necessary, then scaling back access permissions

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 12**

You want to move financial information from Projects to Financials for account level data. Which describes the action you can take to accomplish this? (Choose the best answer.)

- A.** In Financials, run the Financials Integration business rule to update data from Projects.
- B.** On the Financials Integration Summary form, from the Actions menu, select PFP Detail to calculate project data.
- C.** In data maps, push data for the predefined Financial Statement Integration.
- D.** Rollup project data which pushes data to Financials based on account mappings.

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 13**

Which three do you need to enable in order to perform indirect cash flow statement planning? (Choose three.)

- A.** Revenue
- B.** Income Statement
- C.** Expense
- D.** Balance Sheet
- E.** Cash Flow Statement

**Answer: A,C,E ([LEAVE A REPLY](#))**

**NEW QUESTION: 14**

Which three describe what you can do with Valid Intersections? (Choose three.)

- A.** restrict cells containing invalid data, setting them to a read-only state within forms.
- B.** allow all users to select from a non-filtered list of members on the form's point of view
- C.** prevent the user from executing any type of Calculation Manager rule that uses runtime prompts
- D.** filter cell intersections to users when they enter data or select runtime prompts
- E.** specify that certain programs are valid only for some periods or departments.

**Answer: B,D,E ([LEAVE A REPLY](#))**

**NEW QUESTION: 15**

Which two tasks can be scheduled as a job in Planning? (Choose two.)

- A.** Create snapshots
- B.** Promote a Planning Unit
- C.** Execute Data Maps
- D.** Import or export data

**Answer: B,D ([LEAVE A REPLY](#))**

**NEW QUESTION: 16**

A company would like to configure Financials, Workforce, and Projects. They would like to plan and forecast the Project dimension in Financials, as well as track employee utilization in Projects.

Which two actions must they take to ensure that the Project dimension is shared and the data integrated correctly across all three modules? (Choose two.)

- A. In Financials, rename one of the custom dimensions to "Project" and enable it
- B. In Workforce, rename one of the custom dimensions to "Project" and enable it
- C. In Workforce, ensure that the granularity is at Employee or Employee and Job
- D. In Projects, ensure that the Employee driver-based expense is enabled

**Answer: B,C (LEAVE A REPLY)**

#### **NEW QUESTION: 17**

Which statement is true when executing a lifecycle management migration? Choose the best answer.

- A. Importing Dimensions will remove members that do not exist in the snapshot.
- B. All forms that do not exist in the snapshot will be deleted.
- C. Selected slices of data can be imported into Essbase.
- D. Restoring Essbase data from a snapshot will remove any data that doesn't exist in the backup.

**Answer: (SHOW ANSWER)**

#### **NEW QUESTION: 18**

In order to set up weekly planning for a continuous 18 months, which three options would need to be selected when initially configuring Financials? (Choose three.)

- A. Weekly Planning
- B. Plan Element dimension
- C. Rolling Forecast
- D. Weeks to months mapping
- E. Custom Periods

**Answer: A,B,C (LEAVE A REPLY)**

**NEW QUESTION: 19**

What three time period management tasks can you perform in Strategic Modeling?  
(Choose three.)

- A.** Combine periods of years, halves, quarters, months, and weeks for historical forecast data.
- B.** Enable the input option for upper level time periods when you add time detail.
- C.** Select and combine periods of years, halves, quarters, months, and weeks for the beginning balance year.
- D.** Create period-to-date, trailing periods, deal periods, and sub periods to record transactions.
- E.** Configure time periods to reflect the detail required by financial models, such as different levels of granularity for different years.

**Answer: A,B,C (LEAVE A REPLY)**

**NEW QUESTION: 20**

Whenever you change dimensionality in a target cube, what action on the Data Maps page must you take to ensure that you see metadata changes immediately? (Choose the best answer.)

- A.** Select the corresponding data map, and execute the Synchronize Defaults Business.
- B.** Select the corresponding data map, and Refresh the Database.
- C.** Select the corresponding data map, and Synchronize to refresh the data,
- D.** Select the corresponding data map, and execute the Synchronize Components Business Rule.

**Answer: B (LEAVE A REPLY)**

**NEW QUESTION: 21**

You want to share detailed benefits data from Workforce with Financials.

Which statement describes the steps you must take? Choose the best answer.

- A.** Enable and configure Financials, and Workforce. When enabling Financials, create a custom Benefits dimension to map the data to. On the Financials Integration Summary form, run Calculate Compensation to update the Workforce data.
- B.** Enable and configure Financials, and Workforce. When enabling Workforce, create a custom Benefits dimension to map the data to. Then for the Financial Statement Integration data map, synchronize and push the data.
- C.** Enable and configure Financials and Workforce. Then in the Workforce Benefits and Taxes wizard, select a financial account to map the benefit to. For Compensation Data, synchronize and run the data map.
- D.** Enable and configure Financials, and Workforce. Then to capture Workforce expenses for employees, enable Standard Rates from Workforce. For the Compensation Data for Reporting data map, synchronize then push the data.

**Answer: (SHOW ANSWER)**

**NEW QUESTION: 22**

Which three are predefined Workforce business rules? (Choose three.)

- A. Change Job
- B. Remove Existing Employee
- C. Plan Departure
- D. Promote Employee
- E. Transfer

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 23**

What two form validation rules options are supported in Planning? (Choose two.)

- A. When enabled, execute validations associated with the form for all users regardless of access rights when validating the Approval unit.
- B. When enabled, the user variable for the approval dimension on the form will be replaced by the approval unit member before the validations are run.
- C. When enabled, the system figures out which page combinations have potential data blocks and runs the validations regardless of those page combinations.
- D. When enabled, the form will be validated multiple times by replacing the user variable from the approval unit dimension with every possible value.
- E. When enabled, all validations are run as the administrator and applied to the form members.
