### NEW QUESTION: 1

What correctly describes the order in which algorithms, if plugged in, are executed when a bill changes from the "Pending" state to the "Complete" state?

- A.** Customer Class - Pre-Bill Completion; Service Agreement Type - Pre-Bill Completion; Customer Class - Bill Completion; Service Agreement Type - Bill Completion; Customer Class - Post-Bill Completion
- B.** Service Agreement Type - Pre-Bill Completion; Customer Class - Pre-Bill Completion; Service Agreement Type - Bill Completion; Customer Class - Bill Completion; Customer Class - Post-Bill Completion
- C.** Service Agreement Type - Pre-Bill Completion; Customer Class - Pre-Bill Completion; Service Agreement Type - Bill Completion; Customer Class - Bill Completion; Service Agreement Type - Post-Bill Completion; Customer Class - Post-Bill Completion
- D.** Service Agreement Type - Pre-Bill Completion; Service Agreement Type - Bill Completion; Customer Class - Pre-Bill Completion; Customer Class - Bill Completion; Customer Class - Post-Bill Completion
- E.** Customer Class - Pre-Bill Completion; Customer Class - Bill Completion; Service Agreement Type - Pre- Bill Completion; Service Agreement Type - Post-Bill Completion

**Answer: B (LEAVE A REPLY)**

### NEW QUESTION: 2

Your implementation requires an installation of two types of devices:

Electric Smart Meter

Gas Manual Meter

Which two Device Type attributes are required to identify these device types? (Choose two.)

- A. Device Business Object
- B. Manufacturer
- C. Valid Measuring Component Types
- D. Service Type
- E. Serial Number

**Answer:** ([SHOW ANSWER](#))

### **NEW QUESTION: 3**

Within the application, operational devices can be assets or components. Which two statements are true about components? (Choose two.)

- A. Components are attached to assets.
- B. Components can be installed at locations.
- C. Components are not a class of assets.
- D. Components can't have specifications.
- E. Components have a disposition that tracks their location and status.

**Answer:** A,B ([LEAVE A REPLY](#))

### **NEW QUESTION: 4**

What Service Order activity types does the application include?

- A. Enable Service; Disable Service; Install Meter; Remove Meter; Exchange Meter; Back-to-Back Service
- B. Enable Service; Disable Service; Cut for Non-Payment; Reconnect Service for Payment; Exchange Meter; Back-to-Back Service
- C. Start Service; Stop Service; Install Meter; Remove Meter; Exchange Meter; Move-In/Move-Out Service
- D. Start Service; Stop Service; Cut for Non-Payment; Reconnect Service for Payment; Exchange Meter; Move-In/Move-Out Service

**Answer:** B ([LEAVE A REPLY](#))

### **NEW QUESTION: 5**

Which configuration steps are required to derive loss-adjusted kWh on a measuring component based on a loss factor value related to a service point?

- A. Configure a factor and derivation algorithm, and then associate both to the Measuring Component Type and service point.
- B. Configure a Service Point Characteristic Type, factor, derivation algorithm, and Service Quantity Identifier (SQI), and then associate the SQI and derivation algorithm to the Measuring Component Type and the characteristic value to the service point.
- C. Configure a factor and derivation algorithm, and then associate the factor to the Measuring Component Type and the derivation algorithm to the service point.

**D.** Configure an SQI and the derivation algorithm, and then associate the algorithm to the Measuring Component Type and SQI to the service point.

**E.** Configure a Service Point Characteristic Type and derivation algorithm, and then associate the algorithm to the Measuring Component Type and the characteristic value to the service point.

**Answer: D (LEAVE A REPLY)**

#### **NEW QUESTION: 6**

Measuring components are either subtractive or consumptive.

Which statement correctly describes these two concepts?

**A.** Subtractive measuring components are associated with deductive meters, whereas consumptive measuring components are not.

**B.** Subtractive measuring components are associated only with water service, whereas consumptive measuring components are for gas and electric services.

**C.** Subtractive measuring components are used to measure demand, whereas consumptive measuring components are used to measure how much was consumed since the previous reading.

**D.** A subtractive measuring component's consumption for a given period of time is the end measurement minus the start measurement. A consumptive measuring component's consumption is simply the measurement itself, and represents the consumption for the period of time since the previous measurement was taken.

**Answer: C (LEAVE A REPLY)**

#### **NEW QUESTION: 7**

Which three statements are true about the different types of measuring components?  
(Choose three.)

**A.** Seconds-per-interval (SPI) is one of the attributes of scalar measuring components.

**B.** The terms register and channel are synonyms for measuring component.

**C.** Only physical measuring components reference a device configuration.

**D.** The measuring component types are physical, standalone, scratchpad, and TOU.

**E.** Scalar measuring components contain a single measurement for an arbitrary period of time.

**Answer: B,D,E (LEAVE A REPLY)**

#### **NEW QUESTION: 8**

Which statement supports usage transaction calculation?

**A.** Bill determinants are derived from the initial measurement data of the measuring components installed at the usage subscription's devices during the calculation period.

**B.** Bill determinants are derived from the final measurements for only interval measuring components or devices installed at the usage subscription's service points during the calculation period.

**C.** Bill determinants are derived from the final measurements of the measuring components or devices installed at the usage subscription's service points during the calculation period.

**D.** Bill determinants are derived from the initial measurement data of the measuring components devices installed at the usage subscription's service points during calculation period.

**Answer:** ([SHOW ANSWER](#))

#### **NEW QUESTION: 9**

Which three are important Account concepts that must always be followed? (Choose three.)

**A.** Accounts expire when there are no active contracts.

**B.** An Account can only reference one and only one person at one time.

**C.** An Account references one or more persons.

**D.** Every Account has a unique, system-assigned Account ID.

**E.** Bills are produced for an account and are sent to the account persons.

**Answer:** **B,D,E** ([LEAVE A REPLY](#))

#### **NEW QUESTION: 10**

Which three statements are true in relation to Financial Transaction creation algorithms? (Choose three.)

**A.** They control how the General Ledger details are created as these must always exist against a Financial Transaction.

**B.** They control when a Financial Transaction is to be swept onto a bill.

**C.** They control how the payoff balance is affected.

**D.** They control how the current balance is affected.

**E.** They control if and how the General Ledger entries are created.

**Answer:** **B,C,E** ([LEAVE A REPLY](#))

#### **NEW QUESTION: 11**

Which two are "Are SP and Device Ready?" state algorithms for Enable Service? (Choose two.)

**A.** Customer Device Compatibility Check

**B.** Create Usage Subscription

**C.** Start Service Agreement

**D.** Check for Measurement

**E.** Create Service Point

**Answer:** ([SHOW ANSWER](#))

#### **NEW QUESTION: 12**

A usage subscription must exist before usage transactions can be calculated for a specific service point.

Where do you configure the usage recipient?

- A. in the Usage Subscription Type
- B. in the Measuring Component Type
- C. in the Service Point Type
- D. in the Device Type
- E. in the Usage Rule Type

**Answer:** [\(SHOW ANSWER\)](#)

#### **NEW QUESTION: 13**

When a customer has a specific price for a defined quantity which is different to other customers, where is this specific price for the related Bill Factor defined?

- A. Bill Factor Characteristic
- B. Bill Factor Value
- C. Account Characteristic
- D. Calculation Rule
- E. Service Agreement - Contract Value

**Answer:** [E \(LEAVE A REPLY\)](#)

#### **NEW QUESTION: 14**

In addition to sets of procedures, and careful handling instructions for hazardous or delicate materials, what can Specifications include to provide information about assets or other entities?

- A. Conditions
- B. Specifications
- C. Attributes
- D. Rules

**Answer:** [B \(LEAVE A REPLY\)](#)

#### **NEW QUESTION: 15**

Which three statements are true about usage subscriptions? (Choose three.)

- A. A usage subscription can have many service points.
- B. A usage subscription can have only one service point.
- C. A usage subscription can be configured to include only a portion of a service point usage.
- D. Usage subscriptions are always related to an account.
- E. A usage subscription can have either parent or child service points.

**Answer:** [A,D,E \(LEAVE A REPLY\)](#)

#### **NEW QUESTION: 16**

On which three entities can proration be disabled? (Choose three.)

- A. Calculation Rule Business Object
- B. Rate Version Calculation Group
- C. Bill Factor
- D. Calculation Rule
- E. Rate Schedule

Answer: ([SHOW ANSWER](#))

BraindumpsPass.com now offer the **newest 1z0-996-22 exam dumps**, the BraindumpsPass.com 1z0-996-22 exam **questions have been updated** and **answers have been corrected** get the **newest** BraindumpsPass.com 1z0-996-22 dumps with Test Engine here: <https://www.braindumpsPass.com/Oracle/1z0-996-22-practice-exam-dumps.html> (70 Q&As Dumps, **40%OFF Special Discount: Exam-Tests**)

#### NEW QUESTION: 17

Which three initial measurement data (IMD) exception categories are available when you execute VEE rules?

(Choose three.)

- A. Low
- B. Information
- C. Complete
- D. Terminate
- E. Issue

Answer: B,D,E ([LEAVE A REPLY](#))

#### NEW QUESTION: 18

Which entity defines the type of collection process to start based on age of debt, amount of debt, and type of customer?

- A. Collection Process Template
- B. Collection Class
- C. Customer Class
- D. Collection Class Control
- E. Debt Class

Answer: E ([LEAVE A REPLY](#))

#### NEW QUESTION: 19

Which major entities hold the key geographic, demographic, and financial information related to a customer who is financially responsible for a property?

- A. Account, Person, Premise, Service Agreement, Service Port
- B. Account, Bill, Customer Class, Premise, Service Agreement
- C. Account, Bill, Premise, Service Agreement, Service Port
- D. Account, Customer Class, Premise, Service Agreement, Service Port
- E. Account, Customer Class, Person, Premise, Service Agreement

**Answer: A (LEAVE A REPLY)**

#### **NEW QUESTION: 20**

Usage transactions can contain date breaks. Which is used to supply date breaks?

- A. the Usage Subscription Type
- B. the Usage Subscription BO
- C. the requesting system or user input
- D. the Deferred Monitor Calculation Algorithm

**Answer: A (LEAVE A REPLY)**

#### **NEW QUESTION: 21**

Which statement is true about specifications?

- A. Specifications apply only to assets and not to components.
- B. Specifications include the inspection history of an asset.
- C. Specifications can include peer specifications.
- D. A single specification can only be used on one asset.

**Answer: D (LEAVE A REPLY)**

#### **NEW QUESTION: 22**

Which two statements about usage subscription types are correct? (Choose two.)

- A. Usage subscription types define the valid service point types.
- B. Usage subscription types define the recipient of the usage.
- C. Usage subscription types define the time zone.
- D. Usage subscription types define the main billing contact.

**Answer: A,C (LEAVE A REPLY)**

#### **NEW QUESTION: 23**

You are configuring a VEE group to include rules to be executed when loading the initial measurement data (IMD).

What is the VEE group directly associated with?

- A. Usage Type
- B. Measuring Component Type
- C. Device Type
- D. Device Type and Measuring Component Type

E. Device Configuration Type

Answer: E ([LEAVE A REPLY](#))
